CANYON, TEXAS, THURSDAY, MARCH 6, 1930.

NUMBER 50

ROTARIANS ENTERTAINED BY GLEE GIRLS

PRES. HILL TELLS OF TRIP TO EASTERN UNITED STATES

Many Interesting Sights Viewed by the President on Recent Trip to N. E. A. Convention.

A quartet of the Girls Glee Club of the College furnished songs for the entertainment of the Rotary Club at the regular weekly luncheon Tuesday.

The songs rendered by the girls were well received by the appreciative group present at the club meeting. The songs rendered were: "Were I Birding," "My Wild Irish Rose," and "Indian Love Call." Those singing in the quartet were: Miss Margaret Love, Pecos, soprano; Miss Estilene Harris, Canyon, soprano; Miss Lonnie Beth Weaver, Canyon, alto; Miss Shirley Shook, Canyon, alto, and Miss Thelma McMinn, Hereford, at the piano.

Following the songs by the quartet, J. A. Hill, president of the College, told in a brief way some of the experiences of his recent trip to the east. Mr. Hill attended the sessions of the National Education Association, which is one of the largest national gatherings. The meeting was held in Atlantic City, N. J. Among the features of the gathering was the "Pageant of Time," in which 2,800 school children of New Jersey participated.

On his return trip Mr. Hill stopped in Washington and met with the Rotary Club there. The occasion was the Silver Anniversary celebration held by that club. Gene Newsome, president of the Rotary International, was the principal speaker at the meeting, with the United States Marine Band furnishing the music. Foreign diplomats and others from forty-seven different nations were guests of honor of the Washington club on that occasion.

A number of memorable places were visited by the party Mr. Hill was with. A trip to the supreme court while it was in session, through the courtesy of Senator Connally and Congressman Jones, was a feature of the Washington visit.

Stopping in St. Louis, Mr. Hill saw the Lindbergh collection of trophies there. Practically every civilized nation, besides countless individuals, have presented him with some recognition of his feat.

Visiting Rotarians were: Wilbur C. Hawk, Guy A. Carlander, Frank Butler, Don Andrews, Ross Hatcher, Grady Kinve, E. F. Bryan, A. B. Hunsley, H. F. Landers, all of Amarillo. Guests present were: Fred Foster, L. N. George and Fred E. Wortham.

Texas Drama Is Given By W. T. Students

A good representation of W. T. students was present at "The Rescue of Cynthia Ann," a one-act drama of the Texas frontier by John W. Rogers which was given Thursday afternoon at the Children's Theatre. This play was the last to be given until the spring quarter.

The presentation of the play represented an unusual attempt on the part of the dramatic students. The play had its setting on the Texas frontier when times were perilous and news traveled slowly. The action took place in an upper room of the Evans home at Fort Cooper, Texas, where Cynthia Ann was being held for safe keeping until the arrival of her uncle, Col. Isaac Parker, to identify her.

Cynthia Ann was definitely identified by the fact that she remembered two English words, "Cynthia Ann." The character of Cynthia Ann was very well portrayed by Thelma Cook. Because Cynthia Ann, after twenty-five years with the Indians, had forgotten her English and adopted the language of the Comanches, Miss Cook was obliged to act entirely in pantomime. The scene in which Colonel Parker was left alone with the woman in his efforts to identify her as his niece showed especially Miss Cook's art of pantomime.

The acting as a whole was well done. The play was directed by Ruth Stapleton.

MARRIAGE LICENSES

Lenard Hardin and Mrs. Agnes Stovall, March 3, 1930.

Diamonds and Wedding Rings. E. Burroughs.

Terry Beauty Shop To Have Formal Opening March 10

Formal opening of the Terry Beauty Salon on the north side of the square is to be held March 10 at which time fifty dollars in prizes will be given away. The Beauty Salon is owned and managed by Mr. and Mrs. A. E. Terry, who have been in business here six years.

All who expect to win anything must register at some time during the day.

Salesmen say of the Salon here that it is the third largest in the state of Texas.

Hardin Winner at Old Fiddlers Contest

Ed Hardin of Canyon placed sixth in the Old Fiddlers Contest held in Amarillo Tuesday night. There were a total of thirty-seven contestants. First place was won by M. L. Franklin of Collinsworth county.

The contest was the third annual event that is staged in connection with the Cattlemen's convention. The contest is under the auspices of the Tri-State Fair Association, of which Wilbur C. Hawk is president.

Auditor at Work on Books of City

G. A. Sahli of the John F. Canterbury auditing firm of Amarillo has been at work on auditing of the books of the city. Mr. Sahli expects to have a complete report of his audit, which covers a period of two years, prepared some time this week.

Exes Banquet Held Here Last Saturday P. M.

Ex-students of the University of Texas gathered in Canyon Saturday evening for the annual banquet which was held in the dining room of Cousins Hall. On this occasion, Amarillo ex-students were honor guests of the local club, and other guests came from Tulsa, Hereford, Claude, and Washburn.

One hundred covers were laid for dinner and the spirit of the University was very successfully expressed. Lively pep songs and yells were directed by Mrs. Tommie Montfort, song leader, and Mr. Jeff Neely, yell leader. One of the most significant songs was "Will You Come to the Bower," recently sent out by University officials to be sung on this special occasion in communities holding banquets, with the hope of making it a University song.

Mr. W. H. Vaughn, president of the Canyon Association, welcomed the guests and acted as toastmaster during the evening. Dr. A. F. Lumpkin, head of the Amarillo club, was detained by an emergency but Judge J. O. Guleke also responded to the address of welcome.

Interesting features of the program were a stunt by Messrs. Harold Chanklin and Larry Holman, a vocal duet by Mrs. L. F. Sheffy, and a short talk by Mr. H. C. Pipkin.

Dr. J. W. Calhoun, faculty member of the University, was the principal speaker for the occasion, and with all his well known skill as a humorist, kept the guests in a roar of laughter. The serious vein in his speech besought the continued loyalty of the group to the old "forty acres—the forty acres" that is becoming the nucleus of a greater and greater university.

Telegrams were read from President J. A. Hill, who is an ex-student of the University but was unable to attend the affair because of his attendance at the N. E. A. convention; and another from Dr. Benedict, president of the University.

Following the program, separate elections of officers were held and Mr. L. F. Sheffy was selected as president of the local club, Mr. T. B. McCarter, secretary-treasurer, Miss M. Moss Richardson, Alcalde reporter. When the group reassembled, Canyon accepted the invitation to meet in 1931, on March 2, with their club.

Boy Scouts Will Give Program Tonight

The Canyon Boy Scouts will give a program at the College tonight, beginning at 7:30. The program promises to be one of interest and entertaining to those who attend.

Scout Master West has had remarkable success with the local organization during the short time he has been at the head of it. The public is invited to attend the meeting, which will be held in the Educational building at the College.

Do your shopping in Canyon.

BURTON'S CHAMPIONSHIP CAGERS

West Texas State Teachers College Point a Minute Conference Championship team for 1930. Won 9, lost one conference game, scored 40.5 points per game.

Top row, left to right: Burk, Brown, Fuller, Comer, Morris, Clark, Gerald. Bottom row: Coach Burton, Ward, Newman, Captain Keith, Jones, Coach Reeds.

Funeral For W. P. Hedgecoke Held Wednesday

Funeral services were held at 11 o'clock Wednesday morning for W. P. Hedgecoke, who died at his home early Monday morning, following an attack of heart trouble. Rev. G. C. Howard, pastor of the church, conducted the services, assisted by Rev. C. E. Jamison. The Masonic lodge held burial rites at the cemetery.

William Paschal Hedgecoke at the time of his death was 66 years, 11 months and 28 days old. He had been a resident of Canyon for the past three years. He was born in Hopkins county, Texas.

Mr. Hedgecoke was a member of the Baptist church and a prominent member of the Masonic lodge, having held a number of prominent offices in the order, both local and district.

He is survived by his widow, and four sons, E. V. Hedgecoke, Boise City, Okla.; W. M. Hedgecoke, Morgan, Texas; Sid Hedgecoke, Amarillo, and E. B. Hedgecoke, Lubbock.

Interment was at Dreamland cemetery under the direction of the Griggs-Thompson funeral home.

FARMERS MEETING

On co-operative marketing will be held at the school house at Umbarger, Tuesday night, March 11, 8 p. m.

Everyone invited to come and learn how the Federal Farm Board will help to finance farmers thru co-operative marketing.

Texas Wheat Growers' Corp. It

\$150 DAMAGE DONE SCHOOL IN BURGLARY

LITTLE MONEY IS FOUND BY BURGLAR IN RAID

Knob Knocked From Safe Door in Superintendent's Office But No Money Stolen There.

Although little money was stolen, considerable damage was done by a burglar who gained entrance to both the ward and high school buildings Saturday night.

Forcing his way into each building by breaking windows, the burglar entered the various rooms and offices throughout the buildings by prying open doors, in some instances doing considerable damage to doors and locks.

In Superintendent Carruth's office the knob was knocked from the door of the safe, but the combination failed to yield to the burglar so no money was obtained from that source. Mr. Carruth stated that only about \$15 was in the safe at the time.

All the money obtained by the burglar was in the library, where only a small amount was stolen.

After the damage was done to the two buildings it is supposed that the man went to the janitor's quarters in the ward school building and went to bed, as a man was found to be sleeping in the janitor's bed at a late hour Saturday night. He was chased from the building. (Continued on last page)

G. B. Heath Makes Announcement for Co. Commissioner

To the voters of Precinct No. 1: I wish to announce my candidacy for the office of county commissioner. I have been a resident of this county for four years, and I feel that I am well acquainted with the needs of the county, and qualified to perform the duties of this office.

I have had twelve years experience in road building, and I feel that road building and the maintenance of roads is one of the important duties of a commissioner. In my work I have been in close contact with this office, and have made a close study of all duties the commissioners court has to deal with.

I expect to see each voter in the precinct, but if I fail to see you, I will appreciate your vote and support.

I elected to the office for which I ask I will give my time and discharge the duties of the office to the best of my ability.

G. B. HEATH.

DISTRICT P. T. A. MEET

The district meeting of the Council of Mothers and Parent-Teachers associations of the eighth district will be held April 2, 3, and 4, at Childress.

Mrs. A. W. Sternberg of Canyon is first vice-president and will preside at a part of the session.

All Parent-Teacher associations are urged to send delegates.

Help Keep Canyon Clean!

Building Permits Reach Past \$7500 Mark This Week

Building permits issued at the city hall this week passed beyond the \$7,500 mark, when a permit for \$1,000 was issued to C. C. Morgan.

To be exact, the total permits issued to date amount to \$7,530. The permit issued to Mr. Morgan was for two additional rooms to his residence at 1602 Eighth avenue. Contract for the building was let to Contractor Self.

Amarillo Attorney Enters Race for Congress Seat

James O. Cade, Amarillo attorney, has made his announcement as candidate for congress from the 18th Congressional district. In making a public statement concerning portions of the platform upon which he will make the race, Mr. Cade states that he favors the support of organized labor. He favors legislation for the benefit of disabled veterans and opposes the tariff on oil. He states that he favors anti-trust legislation and legislation for the benefit of farmers.

Rotarians Will Go To Hereford Tonight

A number of the members of the Canyon Rotary Club will go to Hereford tonight to confer with business men there relative to the organization of a Rotary club at that place.

A meeting of the men interested in the organization of the club has been held previously in consideration of organization. It is expected that the Canyon club will be instrumental in the organization of a club there within a short while.

West Texas Gas Company Gives Splendid Service

During this winter when the temperatures have dropped to the lowest levels for a number of years, the patrons of the West Texas Gas Company have been given excellent service.

At no times during this winter has the gas pressure of the West Texas Gas company in the lines serving Canyon been lower than six ounces, according to Earl Robbins, manager of the local office of the company. He states that ordinarily the pressure used by other companies is around four ounces, but the West Texas company has maintained a standard higher than ordinary.

Special care has been taken that all lines were in good condition and that all equipment was working properly. The company maintains four recording machines which show the pressure of the gas at all times of the day and night.

Gas consumed by Canyon is delivered to the local gas lines under a pressure of about 200 pounds and is reduced to 25 pounds, and then to six to eight ounces for the consumers' use.

The gas company deserves commendation for the splendid service it has rendered when the service was depended upon by so many people.

REGULAR MEETING CITY FEDERATION

The City Federation of Women's Clubs will have their regular meeting Wednesday, March 12, at two o'clock in the Women's Club rooms. It is urged that each Federated Club have its delegates attend this meeting as the Federation activities for the spring months will be outlined.—Publicity Chairman.

Golden Green and Robert Walker visited in Amarillo Tuesday evening.

MAYOR ISSUES PROCLAMATION FOR CLEAN-UP

WEEK OF MARCH 30 TO APRIL 6 IS SET FOR ACTIVITY

Entire Citizenship Urged to Cooperate in Making Canyon a Clean Town.

It has become an established practice in every wide awake community to clean house in the spring of the year.

Much of our cleaning is due to a desire to make everything attractive, yet there is another important reason why our efforts in that direction should be thorough and complete. I refer to fire and disease prevention, and it is to that feature of the Spring Clean-up activities that I am directing the attention of our people at this time.

Safety from fire and disease is a matter of supreme importance. Wherever there is dirt and disorder there is danger. A pile of trash may start a conflagration; a few ill-kept homes, dirty yards, or stagnant pools may easily become the source of an epidemic. There is a marked similarity between fire and disease hazards. They have a common cause—dirt and carelessness. They have a common cure—constant care to prevent their existence.

Now, Therefore, I, R. A. Bellah, Mayor of the City of Canyon, do hereby designate the period from March 30 to April 5 (inclusive) as Spring Clean-up Week in Canyon, and I call upon every man, woman and child to diligently observe the occasion by clearing away all things that menace our safety from fire, or the public health.

I suggest to housekeepers that they begin in the attic and remove everything from the home that has outlived its day of usefulness. And, when that task has been completed, turn attention to the yard, garage and outhouses.

I call upon every business man to thoroughly inspect his buildings and premises, removing therefrom rubbish and other combustible materials that may have accumulated during the winter season.

This Spring Clean-up campaign should be carried into every section of the city, and the time to begin making preparations for it is now.

Let us enter actively into the work, and thereby contribute to the safety, health and happiness of ourselves and our neighbors.

Given under my hand and seal of office, this 6th day of March, A. D. 1930.

R. A. BELLAH, Mayor.

Merchants to Hold Banquet On March 12

The organization of a Retail Merchants Credit Association will be perfected at a banquet on the night of March 12, according to plans of those who are sponsoring the organization of such an association.

A meeting was held last Wednesday by a number interested in the project, at which time plans were made for the banquet.

A merchants banquet is to be held next Wednesday night at the Odd Fellows hall, beginning at 8 o'clock. A number of out-of-town men who are recognized as splendid speakers, will be present.

Red Cross Committee Makes Report

Miss Ridley, the Red Cross nurse for Randall county, is now working with the children of the college training school. She reports that she is pleased with the response with which she has met in examining these children.

She will soon have her work complete on the work done in Canyon schools and will welcome anyone who wishes to advise with her about the health of any of these children.

Please see her at the county judge's office any Saturday and she may be able to help you to help your child.

PUBLICITY CHAIRMAN, Red Cross Nursing Committee.

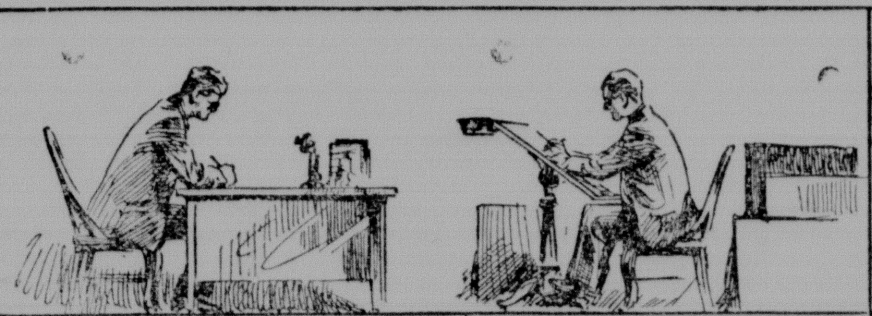

STORK SPECIALS

Born to Mr. and Mrs. T. B. Atkins, a son, Saturday, Mar. 1.

Miss Tena Thompson of Shamrock is visiting with her sister, Mrs. B. C. Taylor.

A Pictorial Editorial

By Albert T. Reid

In the creations of the Author, Artist, and Composer, the public finds its entertainment, information and education. These Creations represent property to those who produce them.

A vast industry, representing a turn over of more than a billion dollars annually is the direct outgrowth of this creative work—the printing and publishing business, music, the radio, and the movies.

This great business gives employment to hundreds of thousands of people, and yet the rights of those upon whose work this industry depends, are inadequately protected under our antiquated Copyright law.

A bill designed to set out these property rights and protect the rights of those who compose and create, is now before Congress. If passed it will do much to stimulate these arts in our country and the public will benefit.

If you believe the Composer, Artist and Author is entitled to have his rights properly safeguarded, write to your Senators and Congressman urging them to support this measure. You will help greatly to promote creative work.

Terry Beauty Shop To Have Formal Opening March 10

Formal opening of the Terry Beauty Salon on the north side of the square is to be held March 10 at which time fifty dollars in prizes will be given away. The Beauty Salon is owned and managed by Mr. and Mrs. A. E. Terry, who have been in business here six years.

All who expect to win anything must register at some time during the day.

Salesmen say of the Salon here that it is the third largest in the state of Texas.

Hardin Winner at Old Fiddlers Contest

Ed Hardin of Canyon placed sixth in the Old Fiddlers Contest held in Amarillo Tuesday night. There were a total of thirty-seven contestants. First place was won by M. L. Franklin of Collingsworth county.

The contest was the third annual event that is staged in connection with the Cattlemen's convention. The contest is under the auspices of the Tri-State Fair Association, of which Wilbur C. Hawk is president.

Auditor at Work on Books of City

G. A. Sahli of the John F. Canterbury auditing firm of Amarillo has been at work on auditing of the books of the city. Mr. Sahli expects to have a complete report of his audit, which covers a period of two years, prepared some time this week.

Exes Banquet Held Here Last Saturday P. M.

Ex-students of the University of Texas gathered in Canyon Saturday evening for the annual banquet which was held in the dining room of Cousins Hall. On this occasion, Amarillo ex-students were honor guests of the local club, and other guests came from Tulsa, Hereford, Claude, and Washburn.

One hundred covers were laid for dinner and the spirit of the University was very successfully expressed. Lively pep songs and yells were directed by Mrs. Tommie Montfort, song leader, and Mr. Jeff Neely, yell leader. One of the most significant songs was "Will You Come to the Bower," recently sent out by University officials to be sung on this special occasion in communities holding banquets, with the hope of making it a University song.

Mr. W. H. Vaughn, president of the Canyon Association, welcomed the guests and acted as toastmaster during the evening. Dr. A. F. Lumpkin, head of the Amarillo club, was detained by an emergency but Judge J. O. Guleke ally responded to the address of welcome.

Interesting features of the program were a stunt by Messrs. Harold Chanklin and Larry Holman, a vocal duet by Mrs. L. F. Sheffy, and a short talk by Mr. H. C. Pipkin.

Dr. J. W. Calhoun, faculty member of the University, was the principal speaker for the occasion, and with all his well known skill as a humorist, kept the guests in a roar of laughter. The serious vein in his speech besought the continued loyalty of the group to the old "forty acres—the forty acres" that is becoming the nucleus of a greater and greater university.

Telegrams were read from President J. A. Hill, who is an ex-student of the University but was unable to attend the affair because of his attendance at the N. E. A. convention; and another from Dr. Benedict, president of the University.

Following the program, separate elections of officers were held and Mr. L. F. Sheffy was selected as president of the local club, Mr. T. B. McCarter, secretary-treasurer, Miss M. Moss Richardson, Alcade reporter. When the group reassembled, Canyon accepted the invitation to meet in 1931, on March 2, with their club.

Boy Scouts Will Give Program Tonight

The Canyon Boy Scouts will give a program at the College tonight, beginning at 7:30. The program promises to be one of interest and entertainment to those who attend.

Scout Master West has had remarkable success with the local organization during the short time he has been at the head of it. The public is invited to attend the meeting, which will be held in the Educational building at the College.

MAYOR ISSUES PROCLAMATION FOR CLEAN-UP

WEEK OF MARCH 30 TO APRIL 6 IS SET FOR ACTIVITY

Entire Citizenship Urged to Co-operate in Making Canyon a Clean Town.

It has become an established practice in every wide awake community to clean house in the spring of the year.

Much of our cleaning is due to a desire to make everything attractive, yet there is another important reason why our efforts in that direction should be thorough and complete. I refer to fire and disease prevention, and it is to that feature of the Spring Clean-up activities that I am directing the attention of our people at this time.

Safety from fire and disease is a matter of supreme importance. Wherever there is dirt and disorder there is danger. A pile of trash may start a conflagration; a few ill-kept homes, dirty yards, or stagnant pools may easily become the source of an epidemic. There is a marked similarity between fire and disease hazards. They have a common cause—dirt and carelessness. They have a common cure—constant care to prevent their existence.

Now, therefore, I, R. A. Bellah, Mayor of the City of Canyon, do hereby designate the period from March 30 to April 5 (inclusive) as Spring Clean-up Week in Canyon, and I call upon every man, woman and child to diligently observe the occasion by clearing away all things that menace our safety from fire, or the public health.

I suggest to housekeepers that they begin in the attic and remove everything from the home that has outlived its day of usefulness. And, when that task has been completed, turn attention to the yard, garage and outhouses.

I call upon every business man to thoroughly inspect his buildings and premises, removing therefrom rubbish and other combustible materials that may have accumulated during the winter season.

This Spring Clean-up campaign should be carried into every section of the city, and the time to begin making preparations for it is now.

Let us enter actively into the work, and thereby contribute to the safety, health and happiness of ourselves and our neighbors.

Given under my hand and seal of office, this 6th day of March, A. D. 1930.

R. A. BELLAH, Mayor.

Merchants to Hold Banquet On March 12

The organization of a Retail Merchants Credit Association will be perfected at a banquet on the night of March 12, according to plans of those who are sponsoring the organization of such an association.

A meeting was held last Wednesday by a number interested in the project, at which time plans were made for the banquet.

A merchants banquet is to be held next Wednesday night at the Odd Fellows hall, beginning at 8 o'clock. A number of out-of-town men who are recognized as splendid speakers, will be present.

Red Cross Committee Makes Report

Miss Ridley, the Red Cross nurse for Randall county, is now working with the children of the college training school. She reports that she is pleased with the response with which she has met in examining these children.

She will soon have her work complete on the work done in Canyon schools and will welcome anyone who wishes to advise with her about the health of any of these children.

Please see her at the county judge's office any Saturday and she may be able to help you to help your child.

PUBLICITY CHAIRMAN, Red Cross Nursing Committee.

STORK SPECIALS

Born to Mr. and Mrs. J. M. Fite a son, Thursday, Feb. 27.

Born to Mr. and Mrs. T. B. Atkins, a son, Saturday, Mar. 1.

Miss Tena Thompson of Shamrock is visiting with her sister, Mrs. B. C. Taylor.

A Pictorial Editorial

By Albert T. Reid

In the creations of the Author, Artist, and Composer, the public finds its entertainment, information and education. These Creations represent property to those who produce them.

A vast industry, representing a turn over of more than a billion dollars annually is the direct outgrowth of this creative work—the printing and publishing business, music, the radio, and the movies.

This great business gives employment to hundreds of thousands of people, and yet the rights of those upon whose work this industry depends, are inadequately protected under our antiquated Copyright law.

A bill designed to set out these property rights and protect the rights of those who compose and create, is now before Congress. If passed it will do much to stimulate these arts in our country and the public will benefit.

Albert T. Reid

If YOU believe the Composer, Artist and Author is entitled to have his rights properly safe-guarded, write to your Senators and Congressman urging them to support this measure. You will help greatly to promote creative work.

The Canyon News

CLYDE W. WARWICK
Owner and Publisher

SUBSCRIPTION \$1.50 PER YEAR

Entered at the postoffice at Canyon, Texas, as second class matter. Published weekly at office, 1513 Fourth Avenue, Canyon, Texas.

THE PUBLIC HAS A SHORT MEMORY

In 1904, Pyle's Pearline was favorably known to most American housewives. That year the owners spent \$500,000 in advertising it. It was an outstanding success.

Three years later the owners felt it was so well known that they could afford to save that \$500,000 a year. They ceased to advertise.

Eight years later, in 1915, the whole works, good will and all, was sold for \$12,000. The public has a short memory.

A short time ago the writer was told by a member of the advertising department of one of the largest soap manufacturers that, according to their surveys, a manufacturer of a new brand of toilet soap today could not attain national distribution and consumption of his produce for less than five million dollars, or in less than five years' time. The public must be told—and told again.

Probably no advertising appropriation has received more publicity or been discussed more than that of the American Tobacco company for advertising Lucky Strike cigarettes.

For advertising this single commodity and brand they appropriated

Childbirth

a happy event

"Mother's Friend relieved me of the strain and the pain that came from the stretching of the skin and tissues," writes a young mother. "I did not suffer as I have heard other women say they did. My doctor recommended it to me." Countless thousands of expectant mothers have had the same experience with "Mother's Friend." It is a scientifically-prepared skin lubricant and pain-killer. "Mother's Friend" originated in the prescription of an eminent obstetrician and has been in use for over 60 years.

You owe yourself the comfort "Mother's Friend" gives. It is so soothing and relaxing. It is used externally only—gently rubbed into the skin. Brings relief promptly. Very valuable in keeping the breasts in good condition. Also puts you in fine shape for the approaching ordeal. "Mother's Friend" is on sale at all drug stores, \$1.25 per bottle. Try a message with it tonight and notice the ease and comfort it gives. A booklet on "Things to Know Before Baby Comes" will be mailed in plain envelope, free, on request. Address: Bradfield Regulator Co., Dept. 14, Atlanta, Ga.

\$12,300,000 for the year 1929. Of this amount, newspapers received \$6,500,000. The public must constantly be reminded, which is a newspaper's function.

What holds true of Lucky Strike holds true of everything people eat, wear or use. It is the function of the printer to also help to tell this story. In most communities there are a lot of merchants who haven't learned yet what their printer can really do for them.—Wroe's Writings.

YOU CAN'T PLEASE EVERYONE

The world is full of good-natured people who try to agree with everybody. If they have any opinions of their own, they conceal them in their effort to avoid hurting someone else's feelings. But they don't get anywhere. They don't gain the respect or the confidence of anybody, and they count for nothing, or next to it, in the lives and affairs of their families and their communities.

How far would a minister get on his mission if he tried to make his sermons please everybody in the congregation? The question answers itself. The politician who flatters all of his constituents, and agrees with whatever any of them thinks, seldom gets elected, and if he does he is even more seldom re-nominated. The business man who would let every customer tell him how to run his store would soon be bankrupt. And the newspaper man who did not have any opinions of his own but ran his paper to suit the supposed views of every one of his subscribers would find himself in a sorry fix.

There is one sound rule for every one who is ambitious to get along in the world and to be a respected member of his community, his state and his country. This rule is to form his or her own opinions, form them in the light of reason and change them only if reasonably convinced that they were wrong, and then to stand by them, courteously but firmly. Even those who disagree will respect the man who honestly and sincerely holds to an opposing view. And it is better to be respected than merely tolerated.

"Rundown, Lost Appetite, Took Cold Easily"

Wichita Falls, Texas. — "I was rundown, lost my appetite and was nervous and irritable. I took cold easily and always suffered with headache. Finally, I started taking Dr. Pierce's Golden Medical Discovery and found it to be the very thing I required to keep me from being so susceptible to colds. I feel my blood circulating better when I take this tonic. I certainly think it is a wonderful medicine. I recommend it willingly and gladly." — Mrs. J. A. Woods, 806 Austin St. All dealers. Tablets or liquid.

Write to Dr. Pierce's Clinic in Buffalo, N. Y., for free medical advice. Enclose 10c for trial of tablets.

DID YOU EVER STOP TO THINK?

By Edson R. Waite
Shawnee, Oklahoma

The other night the citizens of Dallas, Texas, held an unusual dinner. It was an occasion of honor for one of their number, who had just passed his seventieth birthday. Letters and telegrams of congratulation and tribute were received from Ex-President and Chief Justice Taft, a governor, several senators, a large body of Texas congressmen in Washington, presidents of railroads, heads of great industries all over America, educators, men high in church circles, and so on down to just plain folks.

Perhaps most of those who read this have never heard of George B. Dealey. But mighty few of us have grown up without hearing of the Dallas Morning News. Mr. Dealey's life has been spent in the up-building of this great daily, and now at seventy he pauses to look back from his chair at the desk where he is still the active head of his paper and a power for good among his fellow men.

Amid his honors, has he forgotten the days and years of just plain work—the years that often seemed dreary, but which have brought him now to the top of the ladder? I think not. I think he counts them all worth while, and I rather believe he is thankful for even the setbacks which gave him strength to drive forward again.

I add my tribute to the many being accorded to Mr. Dealey, and to the other Mr. Dealeys whose lives have been given to the up-building of their communities, and who have earned the honored title of "leading citizen," all over the face of this earth.

The members of the younger generation needn't think the clutch used in an automobile is something new. Dad can tell you it was often used in the old-time buggy on a quiet country road. — Louisville Times.

The problem at London, it seems, is to balance naval strength so nicely that each nation may be certain of winning the next war.—Florence Herald.

WHY THE CHINESE

STARVE TO DEATH
The newspaper dispatches a few weeks ago carried the startling headlines, "Two Million Chinese Doomed to Die!"

China is in the grip of a food famine. Millions are dying of slow starvation. Hundreds of thousands have already died since winter began, and there is no human power on earth that can save the rest of those who are threatened.

Yet China is mainly an agricultural country, and its people are highly efficient producers of crops. They practice scientific methods of crop rotation and fertilization and maintain the yield of any given piece of ground year after year.

Why, then, do the Chinese starve?

They starve because they have no livestock. That is the explanation which Mr. Renick W. Dunlap, U. S. Assistant Secretary of Agriculture, gives, with convincing arguments in favor of that statement.

"The Chinese lack that great reserve of food which is represented by the vast herds and flocks of America," says Mr. Dunlap. "In a land dependent entirely upon its plant crops, for food, one crop failure is likely to mean famine. Our livestock industries represent a vast reservoir of foodstuffs, something which we may draw upon in time of need, and build up in time of surplus. A large corn crop is carried along a year or so in the form of hogs and cattle."

Before livestock became an essential part of general farming, famine conditions were likely to arise anywhere, as they formerly

did frequently in parts of Europe and within recent years over extensive parts of India, where the religion of the people forbids the taking of life, and meat food is unknown.

In the United States there are still agricultural sections where no livestock, practically, is kept, and those are the sections in which the farmers have the hardest time to get along. One of the most important parts of agricultural education in America in the past forty years has been the effort on the part of federal and state agricultural departments, and the agricultural colleges, to introduce diversified farming into the one-crop regions.

It is surprising to learn that over two-thirds of all the land included in the farms of the United States is devoted to growing feed for livestock, or for their pasturage. This is in addition to the great herds which graze on the open ranges not included in farms. And more than half of the annual value of the farm products of America is the value of the cattle, hogs, sheep, horses, mules, and animal by-products raised on the farms.

The man who sings at the top of his voice for an hour a day will not be troubled by chest complaints in his old age, I read. The neighbors will make sure of that.—The Passing Show.

The daily syndicated pieces by stage comedians are very heart-rending. The chestnut blight, it appears, has been greatly exaggerated by the nature writers.—Detroit News.

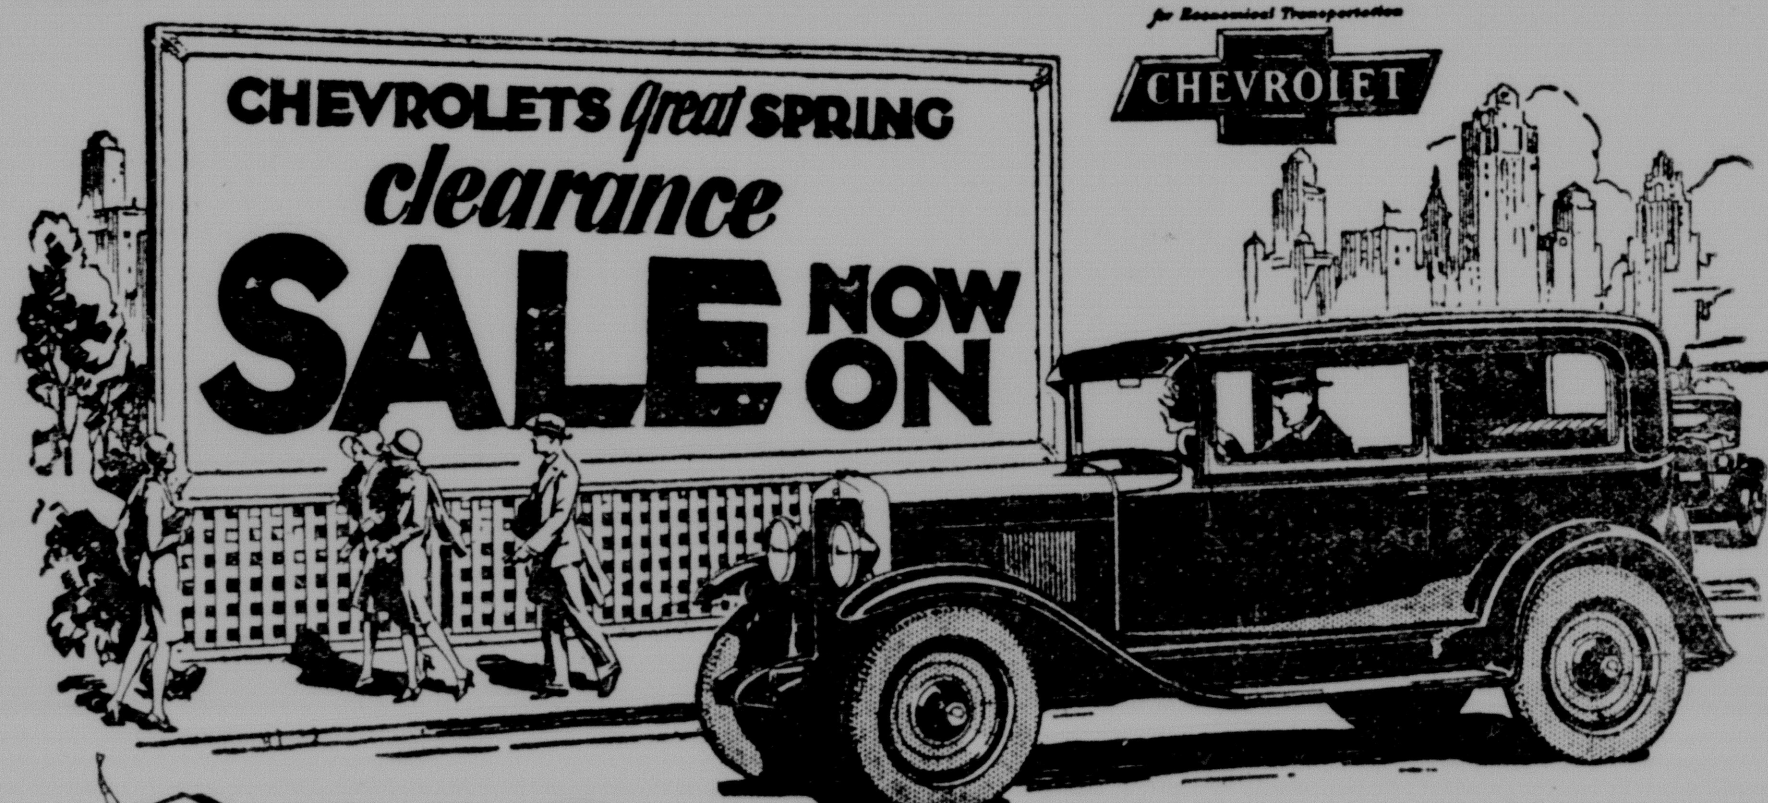

Every member, from the growing child to the working adult, needs the energy and vitality to be gained from meats. We sell home-grown meats that are fresh, tender and appetizing. Our prices are dependably right.

BUFFS CLOSE SEASON WITH BIG VICTORY

FIVE MEN WEAR MAROON AND
WHITE LAST TIME

N. M. M. I. Cadets Score 11 Points
to 52 Scored by the
Buffaloes.

Another very successful basketball season came to a close Friday evening, when the Buffaloes defeated the New Mexico Military Institute, 52-11. Just because the score is considerably one-sided is not any indication that it was an easy game. The Buffs had to work, and work hard.

Despite the scoring of the Buffs, the Soldiers attempted several different attacks upon the Herd, but all was in vain. The Herd held the Cadets to one of the lowest scores of any team that has challenged the Buffs; five field goals and one free pitch was Roswell's limit. But too many missed shots that should have been sure counts were the greatest cause of the Military boys' defeat.

A. Foley, the center for the Cadets, was their star player. He was a good defensive man, and got the tip off on several occasions. He got possession of the ball many times, but his teammates failed to advance very far against the strong defense set up by the Herd.

In the second half, the Buffs decided to see which one could score the most points. One time or another each Buff was in the lead. The result ended in Keith and Newman tying with 12 each, 6 field goals being their counters. Ward was next with 9.

The game was never tied. The half ended 26-3. At this, the Soldiers never gave up, but fought a valiant battle.

Coach Burton played ten men in high fight against the Roswell players, ending up with the five that closed their basketball season: Jones, Keith, Newman, Ward, and Gerald. The others were: Brown, Burk, Fuller, Clark, and Morris. These men are to return next season.

Brown and Burk exhibited excellent floor work, dashing from goal to goal and completely baffling the Roswell boys. They were able to make stars of themselves.

This year found Newman at his best. He heads the list in points gained for his team, a total of 146. He has played in every game, and in not one did he lag. When the team was resting at the half Friday night, Newman was heard to say: "We have almost reached our goal for W. T. Four long years, let's go wind up our last half."

Ward has been a man to set an example for his followers. He is one of the best guards that ever walked on the Buffalo floor. Coach Burton loses a great man.

Capt. Red Keith is one of the greatest all around athletes ever to wear the Maroon and White for West Texas. When he played his last game Friday night, it marked his fourteenth athletic letter. He has been a dependable forward. Above all, he has been a great leader for the boys.

Jones has been a member of the Buffalo basketball squad for three years and has lettered twice. He was on the go Friday night and was in the race for score honors. He is fast on the floor and has an uncanny eye for the basket.

Gerald has been the most dreaded of all players for the opponents. He was stopping so many plays in one game this season, that a certain coach sent in men to stop him, if it took a foul every time. When the second half started Friday night, Gerald said, "Let's show them what we have, it's our last time."

These boys have passed the ball to each other for the last time. As Coach Burton said, "In many respects it's my greatest bunch."

Help Keep Canyon Clean.

HOW ONE MAN ENDED "RHEUMATISM"

Stomach Troubles, and Built up
His Strength At The Same Time

There is a way to get rid of rheumatism pains along with pains in the stomach, back and sides—and until you try it you can blame only yourself for your suffering. It is through the use of the "miraculous medicine" Tanlac that I have steadily but quietly been performing almost miraculous benefits for millions. Here's just one case out of thousands who have in their joy taken the trouble to write us. His name is Mr. B. F. Burbage. Mr. Burbage, a transfer man, suffered for 15 years from rheumatism and as he had to earn his living like you and I he had just about despaired when as a last resort he tried Tanlac. "I could hardly move about or raise my arms up. To go up or down stairs it would seem like my knees would break. The pain hurt awful and crippled me up. Besides rheumatism, my digestion was bad and I was rundown generally. It was a mighty big handicap in my business. Finally I began Tanlac and it won the bout for me. It began at once to overcome my muscular rheumatism and now have not an ache or pain and am a well and new man. I recommend Tanlac with unbounded confidence." Other remedies may promise but Tanlac performs the use of the "miraculous medicine" Tanlac and backs claims with a guarantee. Accept no substitute. At all druggists.

"Point a Minute" Basketball Team Has Fine Record

The "Point a Minute" basketball team of the West Texas State Teachers College is in many respects one of the greatest ever turned out by this championship producing school. In ten conference games, nine of which were won and one lost, the Buffaloes amassed a total score of 405 points of 40.5 points per game.

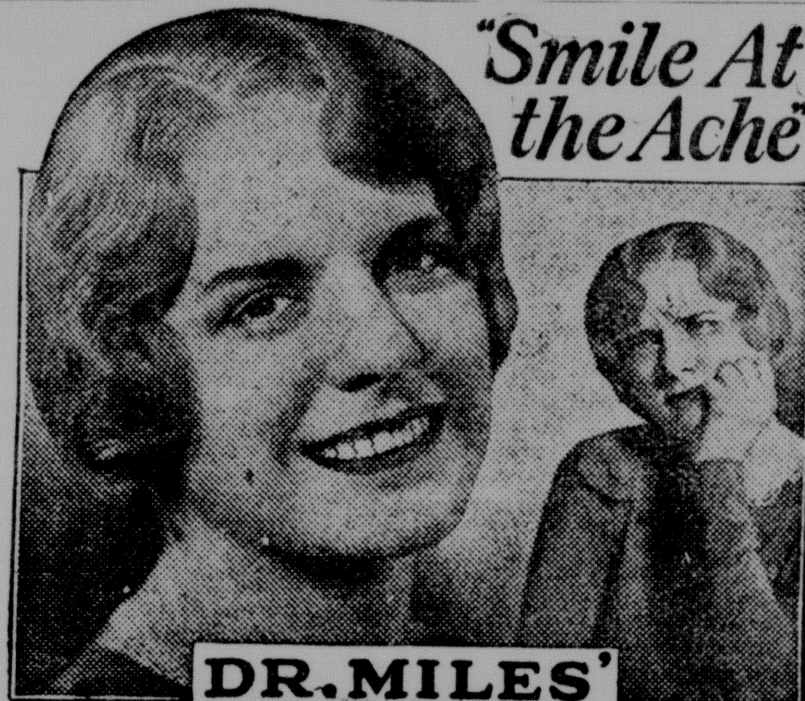

The team was not only a scoring machine but was also strong defensively. In the ten conference games, the opponents were able to score only 198 points or 19.8 points per game.

A total of sixteen men participated for the Buffaloes in these games. Fuller and Comer were the centers; Newman, Captain Keith, Brown, Jones, and Burk did most of the playing at forward; Gerald, Ward, Clark, Bandy, and Morris were the guards. Newman led his mates with 81 points, Fuller 66, Ward 62, Gerald 58, Captain Keith 43, Brown 33, Comer 23, Burk 19, Jones 16. Other points scored were by reserves.

In non-conference games, the Herd won two from New Mexico A. and M., one from Texas Mines, one from Panhandle A. and M., won three from Texas Tech. and lost one to the same team, and won one from the New Mexico Military Institute. Two were dropped to Simmons University. Unfortunately, both the Simmons games were played after long, hard road trips, which put the Buffs at a decided disadvantage.

In the past nine years, the Buffaloes have won 160 conference games, and have lost 31, for a percentage of .837. In eight years in the Texas Intercollegiate Association the Buffaloes have won four championships, were in second place twice, and third place twice.

Service Tells During Severe Cold Spells

When the piercing winds came out of the North, together with heavy snows, and the drop of mercury shivered and sought refuge at the bottom of your thermometer—you were Warm.

The comfort you enjoyed was not due to any accident—but was the result of the untiring labor of hundreds of employees of an organization which spares nothing in its efforts to keep faith with you. While you were sitting in front of your fire, while you were eating a warm appetizing meal, while you were enjoying a good night's rest, these men were fighting hard and unflinchingly against the bitter elements—perishing winds, ice and snow—to insure your perfect comfort. The result of these efforts is SERVICE.

Natural Gas, without SERVICE, is of little advantage—like a shell without a gun. When, however, it enjoys the companionship of a wholehearted service which we strive unceasingly to give, it immediately becomes the most beneficial, economical and dependable fuel known to men.

Wrestling, Boxing Tournaments to be Held Next Quarter

Tournaments in intra-mural boxing and wrestling will begin in about four weeks, or immediately after the beginning of the spring quarter. There will be five weights in each, which includes featherweight to heavyweight. According to Herschel Jennings, who will supervise the contests, the prospects for this year are better than ever.

There will be a new rule concerning the former champions, according to Coach Jennings. A roster of school champs in both boxing and wrestling will be kept as a permanent thing. The winner of any weight in either boxing or wrestling becomes school champ for that year unless challenged and defeated. All previous champs who are in school are eligible to issue a challenge to the new champ. Appropriate awards will be given to the winners, which will probably be small gold gloves.

Anyone may compete in either or both of the contests. Those who wish to enter should see Coach Jennings and begin training now. The names of those who enter either must be given to him before or during the first week of next quarter.

Last year there was only a boxing tournament. It was a success, and five new champions came out of the struggle to fight the five school champions. Out of the five fights the new champions won two, lost two, and fought one to a draw. This was the lineup: Featherweight—Stevens won over Higdon, former school champ. Lightweight—Lee fought Lee to a draw, the latter remains champ. Welterweight—Hill lost to Gerald, who remains champ. Light heavyweight—Smoot won by forfeit. Heavyweight—Bass won by forfeit.

AUTOMOBILE ACCIDENT TOLL STILL GROWING

According to a bulletin issued by one of the largest life insurance companies in the world, "one seeks in vain for a single encouraging element in the automobile accident situation." One-third of all the accidental deaths among policy holders of this company, during the larger part of last year, were caused by the automobile. It is the only form of accidental death now on the increase in this country.

During 1929, 31,500 people lost their lives in motor accidents. This was the largest casualty record in history, representing a 13 per cent increase over 1928. Motor vehicle registrations increased only 8 per cent during the year.

To quote further from the insurance report, among the insured the automobile has caused as many deaths as measles, scarlet fever, diphtheria and whooping cough—the four principal children's diseases—combined. More than 2 per cent of deaths from all causes are due to automobile accidents.

We have been pitifully inadequate in dealing with the careless, irresponsible, drunken or otherwise negligent driver, who leaves death and destruction in his wake. Compulsory insurance laws fail as accident preventatives.

Every town and state should modernize its traffic laws, and discipline those who disobey them. Such a nation-wide program would decrease the accident rate.

This automobile accident menace is every citizen's problem.

The President's Mountain School and Its Teacher

When President Hoover discovered that there was no school for the mountain children living near his fishing camp at Madison, Va., he promised to supply one. It has just been finished and Miss Christine Vest, herself a mountain girl from Kentucky, a graduate of Berea College and Columbia University, has been engaged as teacher.

Buffaloes Defeat Oklahoma Farmers With 42-30 Score

Tuesday night, the West Texas Buffaloes defeated the Panhandle A. and M. team of Goodwell, 42-30, in a slow game of basketball. Both teams were in good form, but neither worked to do its best.

A foul was the result of the very first jump, but it was not long until Newman had rung the first goal. The farmers put out their defense and fought the Buffs for a hard battle, and neither team scored for several minutes.

The score was even at six minutes of play, 3-3, but that was the only time. The half ended 18-14. The second string Buff men were substituted at the half, but in just a few minutes the first bunch was sent back. Goodwell began to climb and got within five points of the Herd.

At this moment the Buffs put out their old form and left the Farmers for a 12-point defeat. Ward was high point man with 14. Brown for Goodwell was second with 10.

BAPTIST CHURCH

9:45 a. m. Sunday School, Prof. J. S. Humphreys, Supt.

11:00 a. m. Preaching Service by Pastor.

Theme for morning sermon, "Jerusalem the Golden." A Contemplation of the Glories of Heaven.

7:00 p. m. B. Y. P. U. meetings.

8:00 p. m. Preaching service. Sermon by the pastor.

Theme for the evening sermon, "A Whole Life For Christ."

Remarks: The morning sermon will be the sixth of the special series on "Life's Tomorrows."

"Heaven" is a sweet word. It should be longed for, sought after, won by all our friends and neighbors. For the hereafter it is the Christian's objective. No words can portray its beauty or paint its glories. The Bible gives us blessed glimpses. Our future home should call forth our highest contemplation, our deepest concern, our fondest anticipation.

You are welcome to all our meetings.

C. G. HOWARD, Pastor.

Upchurch Takes County Exhibit to Fort Worth

County Agent W. H. Upchurch left yesterday morning for Fort Worth, where he is taking the Randall county farm exhibit for display at the Fat Stock Show.

In addition to the exhibit, which won first place at the Tri-State Fair in Amarillo last fall, Mr. Upchurch is taking a few pictures of the scenes along the canyons near here. These, he believes, will create interest in the beauty of this section if shown along with the exhibit.

METHODIST CHURCH

The pastor will preach Sunday at 11 a. m., and Mrs. Nat G. Rolins, President of the Woman's Missionary Society of the Northwest Texas conference will speak at 7:45 p. m. The public is cordially invited to all of the services of the day.

C. E. JAMESON, Pastor.

CHRISTIAN ENDEAVOR

The time of meeting of Christian Endeavor has been changed to 6:45. All young people have a cordial invitation to attend the service at this hour.

Next Sunday's Program:

Topic: Why and How Win Others to Christ?

Leader: Ileta Grant.

Song: 212.

Song: 186.

Sentence Prayers.

Song: 193.

Scripture: Isaiah 61:1-3; Revelation 22:17—Alleen McCants.

Solo—Janet Holmes.

Discussion by the group led by Ileta Grant.

Benediction.

BOX SUPPER

The public is invited to attend a box supper at the Birch School house March 14. The program will be given by the school and proceeds will go to the benefit of the school.

Her slim figure yawed with the rhythm of the music that she lifted slightly and her white lids drew from the instrument, her chin closed over her China blue eyes.—Los Angeles Record.

School Census Is Being Made In Canyon Now

J. W. Shanklin, newly elected secretary of the Canyon School Board, has begun taking of the school census of this district.

The census of last year totaled 760 scholastics in the district. The census must be completed by Apr. 1.

PRISCILLA CLUB

Mrs. O. W. Gano delightfully entertained the Priscilla Club Wednesday afternoon in her home. The afternoon was spent in needlework and pleasant conversation. Refreshments were served to members and Mrs. Shorty Prichard, guest of the club.

HINTS FOR THE HOME WASHING WOOL

Woolen garments and accessories can be made to look well and wear well if you remember a few simple rules in laundering them. Never permit woolen articles to become badly soiled, as rubbing, twisting or any kind of strenuous handling is likely to stretch and otherwise injure the fabric while it is wet. As woollens require a special temperature of water in laundering, they should never be placed in a tub with other fabrics. A temperature of about 100 degrees Fahrenheit will prove satisfactory.

Dissolve a mild soap in hot water. Add cold water until the temperature is lukewarm before you immerse the garments. Press the suds through the fabric until the soil is removed, using additional clean soapsuds if necessary. Be sure that the rinsing water is the same temperature as that used for washing. Carelessness in this respect is likely to cause the fabric to shrink or harden.

After washing knitted garments, press out the water and gather them together before removing them from the tub, so that they will not be stretched by the weight of the water. For the same reason, never hang them up while they are wet. Place each piece between Turkish towels on a flat, clean surface, spreading the sleeves out straight and adjusting the lines to conform to the measurements taken before laundering the garments.

Jowell News

Everybody was enjoying the nice spring weather of February, but everyone needed an overcoat the first few days of March.

Remember ye have Sunday school at Jowell every Sunday morning at 10:30. Everybody is invited to attend.

Mr. and Mrs. Charlie Hileman of Clovis, N. M., are visiting at the parental C. P. Hileman home this week.

Miss Mabel Leavitt visited with Misses Anna and Ruth Frank Tuesday night near Umbarger.

Mr. M. D. Randolph entertained a number of ladies Thursday. After a pleasant afternoon the guests were served fruit salad, cake, and cocoa. Those present were: Mrs. H. Garvin, Mrs. Lybarger, Mrs. C. P. Robertson, Mrs. J. J. Leavitt, Mrs. Frank Davis, Mrs. A. L. Glenn and Mrs. Milton Dooley.

Mr. and Mrs. Earl Davis visited with friends near Happy Sunday.

Mr. and Mrs. Sanders of Coryell are visiting at the W. Fewell home this week.

Mrs. Chatham and Mrs. John Stutts of Arney spent Sunday with Mrs. Frank Davis.

Mr. and Mrs. Earl Davis attended the Old Fiddlers Contest at Amarillo Tuesday night.

CANDIDATES FOR CITY OFFICE

The following names have been authorized to be placed on the City of Canyon Ticket to be voted on April 1st, 1930:

For Mayor, R. A. Bellah.
For Commissioner, Grady Oldham.
For Commissioner, R. P. Jarrett.
5014

BIRTHDAY PARTY

Meredith Warren was host to a group of his friends on his eleventh birthday Sunday afternoon from four to six. The table was decorated in pink and green, with sweet peas, pink candles, silver holders, and in the center was a big birthday cake. Punch with green cubes and angel food cake were served to the twelve boys and girls present.

BRIDGE AND 42 PARTIES

Forty-eight guests were present at the two parties given Wednesday morning and afternoon by Mrs. Annie V. McCarty and her daughters, Miss Minnie and Miss Nora for a group of their friends.

Forty-two was played at the morning party when twenty guests were present. The afternoon was spent in playing bridge.

"I made some very valuable contacts today."

"I didn't make any sales, either."

MATHIS-REDELL

Word has been received of the marriage of Miss Maebeth Reddell of Abilene to Mr. Olin L. Mathis of that city. They were married on Valentine's Day and spent their honeymoon in Fort Worth and Dallas.

Mrs. Mathis is the daughter of Mr. and Mrs. T. M. Reddell of Abilene. She did most of her high school work here and is well known. Mr. Mathis is a salesman with the Walker-Smith Wholesale Grocery. Mr. and Mrs. Mathis will make their home in Abilene.

FRIDAY AFTERNOON CLUB

Mrs. Irby Carruth and Mrs. Dan Sanders entertained members of the Friday Afternoon Bridge Club and their husbands with a bridge dinner at the home of Mrs. Sanders Friday evening. The rooms were decorated in green and white and St. Patrick's pipes and shamrocks were used as motifs. A two course dinner was served to members, their husbands, and the following guests: Dr. and Mrs. S. L. Ingham, Mr. and Mrs. D. A. Shirley, and Mrs. Lee Foster.

Dinner that night passed in a dead calm.—San Francisco Chronicle.

PUBLIC INTEREST AROUSED

The public interest that is now being aroused in our crime situation is a healthy sign of future action.

President Hoover's committee on law enforcement has made its first report and suggests that American judicial action be simplified and strengthened.

One of the most interesting factors in the situation is the agreement among many authorities that certainty of punishment, rather than severity alone, is a pre-eminent crime deterrent.

Although law-ridden, America is the greatest law-breaking country in the world.

It is time to stop passing crime breeding legislation, namely, thousands of new laws which make involuntary law-breakers of otherwise law-abiding citizens, on the theory that an "anti this" or an "anti that" law will curb crime. If the criminal obeyed the laws, the penitentiaries would have been empty years ago.

Moral: Law enforcement, not more laws.

A very unusual, yet remarkable, accident occurred.—Regina Daily Post.

Wrestling, Boxing Tournaments to be Held Next Quarter

Tournaments in intra-mural boxing and wrestling will begin in about four weeks, or immediately after the beginning of the spring quarter. There will be five weights in each, which includes feather-weight to heavyweight. According to Herschel Jennings, who will supervise the contests, the prospects for this year are better than ever.

There will be a new rule concerning the former champions, according to Coach Jennings. A roster of school champs in both boxing and wrestling will be kept as a permanent thing. The winner of any weight in either boxing or wrestling becomes school champ for that year unless challenged and defeated. All previous champs who are in school are eligible to issue a challenge to the new champ. Appropriate awards will be given to the winners, which will probably be small gold gloves.

Anyone may compete in either or both of the contests. Those who wish to enter should see Coach Jennings and begin training now. The names of those who enter either must be given to him before or during the first week of next quarter.

Last year there was only a boxing tournament. It was a success, and five new champions came out of the struggle to fight the five school champions. Out of the five fights the new champions won two; lost two, and fought one to a draw. This was the lineup: Featherweight—Stevens won over Higdon, former school champ. Lightweight—Gee fought Lee to a draw, the latter remains champ. Welterweight—Hill lost to Gerald, who remains champ. Light heavyweight—Smoot won by forfeit. Heavyweight—Bass won by forfeit.

AUTOMOBILE ACCIDENT TOLL STILL GROWING

According to a bulletin issued by one of the largest life insurance companies in the world, "one seeks in vain for a single encouraging element in the automobile accident situation." One-third of all the accidental deaths among policy holders of this company, during the larger part of last year, were caused by the automobile. It is the only form of accidental death now on the increase in this country.

During 1929, 31,500 people lost their lives in motor accidents. This was the largest casualty record in history, representing a 13 per cent increase over 1928. Motor vehicle registrations increased only 8 per cent during the year.

To quote further from the insurance report, among the insured the automobile has caused as many deaths as measles, scarlet fever, diphtheria and whooping cough—the four principal children's diseases—combined. More than 2 per cent of deaths from all causes are due to automobile accidents.

We have been pitifully inadequate in dealing with the careless, irresponsible, drunken or otherwise negligent driver, who leaves death and destruction in his wake. Compulsory insurance laws fail as accident preventatives.

Every town and state should modernize its traffic laws, and discipline those who disobey them. Such a nation-wide program would decrease the accident rate.

This automobile accident menace is every citizen's problem.

Farming pays in Randall county.

The President's Mountain School and Its Teacher

When President Hoover discovered that there was no school for the mountain children living near his fishing camp at Madison, Va., he promised to supply one. It has just been finished and Miss Christine Vest, herself a mountain girl from Kentucky, a graduate of Berea College and Columbia University, has been engaged as teacher.

Buffaloes Defeat Oklahoma Farmers With 42-30 Score

Tuesday night, the West Texas Buffaloes defeated the Panhandle A. and M. team of Goodwell, 42-30, in a slow game of basketball. Both teams were in good form, but neither worked to do its best.

A foul was the result of the very first jump, but it was not long until Newman had rung the first goal. The farmers put out their defense and fought the Buffs for a hard battle, and neither team scored for several minutes.

The score was even at six minutes of play, 3-3, but that was the only time. The half ended 18-14. The second string Buff men were substituted at the half, but in just a few minutes the first bunch was sent back. Goodwell began to climb and got within five points of the Herd.

At this moment the Buffs put out their old form and left the Farmers for a 12-point defeat. Ward was high point man with 14. Brown for Goodwell was second with 10.

BAPTIST CHURCH

9:45 a. m. Sunday School, Prof. J. S. Humphreys, Supt.

11:00 a. m. Preaching Service by Pastor.

Theme for morning sermon, "Jerusalem the Golden." A Contemplation of the Glories of Heaven. 7:00 p. m. B. Y. P. U. meetings. 8:00 p. m. Preaching service. Sermon by the pastor.

Theme for the evening sermon, "A Whole Life For Christ." Remarks: The morning sermon will be the sixth of the special series on "Life's Tomorrows." "Heaven" is a sweet word. It should be longed for, sought after, won by all our friends and neighbors. For the hereafter it is the Christian's objective. No words can portray its beauty or paint its glories. The Bible gives us blessed glimpses. Our future home should call forth our highest contemplation, our deepest concern, our fondest anticipation.

You are welcome to all our meetings.

C. G. HOWARD, Pastor.

Do your shopping in Canyon.

Upchurch Takes County Exhibit to Fort Worth

County Agent W. H. Upchurch left yesterday morning for Fort Worth, where he is taking the Randall county farm exhibit for display at the Fat Stock Show.

In addition to the exhibit, which won first place at the Tri-State Fair in Amarillo last fall, Mr. Upchurch is taking a few pictures of the scenes along the canyons near here. These, he believes, will create interest in the beauty of this section if shown along with the exhibit.

METHODIST CHURCH

The pastor will preach Sunday at 11 a. m., and Mrs. Nat G. Rollins, President of the Woman's Missionary Society of the Northwest Texas conference will speak at 7:45 p. m. The public is cordially invited to all of the services of the day.

C. E. JAMESON, Pastor.

CHRISTIAN ENDEAVOR

The time of meeting of Christian Endeavor has been changed to 6:45. All young people have a cordial invitation to attend the service at this hour.

Next Sunday's Program: Topic: Why and How Win Others to Christ?

Leader: Ileta Grant.

Song: 212.

Song: 186.

Sentence Prayers.

Song: 193.

Scripture: Isaiah 61:1-3; Revelation 22:17—Alleen McCants.

Solo—Janet Holmes.

Discussion by the group led by Ileta Grant.

Benediction.

BOX SUPPER

The public is invited to attend a box supper at the Birch School house March 14. The program will be given by the school and proceeds will go to the benefit of the school.

Her slim figure yawed with the rhythm of the music that she lifted slightly and her white lids drew from the instrument, her chin closed over her China blue eyes.—Los Angeles Record.

School Census Is Being Made In Canyon Now

J. W. Shanklin, newly elected secretary of the Canyon School Board, has begun taking of the school census of this district.

The census of last year totaled 760 scholars in the district. The census must be completed by Apr. 1.

PRISCILLA CLUB

Mrs. O. W. Gano delightfully entertained the Priscilla Club Wednesday afternoon in her home. The afternoon was spent in needlework and pleasant conversation. Refreshments were served to members and Mrs. Shorty Prichard, guest of the club.

HINTS FOR THE HOME WASHING WOOL

Woolen garments and accessories can be made to look well and wear well if you remember a few simple rules in laundering them. Never permit woolen articles to become badly soiled, as rubbing, twisting or any kind of strenuous handling is likely to stretch and otherwise injure the fabric while it is wet. As woollens require a special temperature of water in laundering, they should never be placed in a tub with other fabrics. A temperature of about 100 degrees Fahrenheit will prove satisfactory. Dissolve a mild soap in hot water. Add cold water until the temperature is lukewarm before you immerse the garments. Press the suds through the fabric until the soil is removed, using additional clean soapsuds if necessary. Be sure that the rinsing water is the same temperature as that used for washing. Carelessness in this respect is likely to cause the fabric to shrink or harden.

After washing knitted garments, press out the water and gather them together before removing them from the tub, so that they will not be stretched by the weight of the water. For the same reason, never hang them up while they are wet. Place each piece between Turkish towels on a flat, clean surface, spreading the sleeves out straight and adjusting the lines to conform to the measurements taken before laundering the garments.

Jowell News

Everybody was enjoying the nice spring weather of February, but everyone needed an overcoat the first few days of March.

Remember ye have Sunday school at Jowell every Sunday morning at 10:30. Everybody is invited to attend.

Mr. and Mrs. Charlie Hileman of Clovis, N. M., are visiting at the parental C. P. Hileman home this week.

Miss Mabel Leavitt visited with Misses Anna and Ruth Frank Tuesday night near Umbarger.

Mr. M. D. Randolph entertained a number of ladies Thursday. After a pleasant afternoon the guests were served fruit salad, cake, and cocoa. Those present were: Mrs. H. Garvin, Mrs. Lybarger, Mrs. C. P. Robertson, Mrs. J. J. Leavitt, Mrs. Frank Davis, Mrs. A. L. Glenn and Mrs. Milton Dooley.

Mr. and Mrs. Earl Davis visited with friends near Happy Sunday. Mr. and Mrs. Sanders of Coryell are visiting at the W. Fewell home this week.

Mrs. Chatham and Mrs. John Stutts of Arney spent Sunday with Mrs. Frank Davis.

Mr. and Mrs. Earl Davis attended the Old Fiddlers Contest at Amarillo Tuesday night.

CANDIDATES FOR CITY OFFICE

The following names have been authorized to be placed on the City of Canyon Ticket to be voted on April 1st, 1930:

For Mayor, R. A. Bellah.
For Commissioner, Grady Oldham.
For Commissioner, R. P. Jarrett.

BIRTHDAY PARTY

Meredith Warren was host to a group of his friends on his eleventh birthday Sunday afternoon from four to six. The table was decorated in pink and green, with sweet peas, pink candles, silver holders, and in the center was a big birthday cake. Punch with green cubes and angel food cake were served to the twelve boys and girls present.

BRIDGE AND 42 PARTIES

Forty-eight guests were present at the two parties given Wednesday morning and afternoon by Mrs. Annie V. McCarty and her daughters, Miss Minnie and Miss Nora for a group of their friends. Forty-two was played at the morning party when twenty guests were present. The afternoon was spent in playing bridge.

"I made some very valuable contacts today."

"I didn't make any sales, either."

MATHIS-REDELL

Word has been received of the marriage of Miss Maebeth Reddell of Abilene to Mr. Olin L. Mathis of that city. They were married on Valentine's Day and spent their honeymoon in Fort Worth and Dallas.

Mrs. Mathis is the daughter of Mr. and Mrs. T. M. Reddell of Abilene. She did most of her high school work here and is well known. Mr. Mathis is a salesman with the Walker-Smith Wholesale Grocery. Mr. and Mrs. Mathis will make their home in Abilene.

FRIDAY AFTERNOON CLUB

Mrs. Irby Carruth and Mrs. Dan Sanders entertained members of the Friday Afternoon Bridge Club and their husbands with a bridge dinner at the home of Mrs. Sanders Friday evening. The rooms were decorated in green and white and St. Patrick's pipes and shamrocks were used as motifs. A two course dinner was served to members, their husbands, and the following guests: Dr. and Mrs. S. L. Ingham, Mr. and Mrs. D. A. Shirley, and Mrs. Lee Foster.

Dinner that night passed in a dead calm.—San Francisco Chronicle.

PUBLIC INTEREST AROUSED

The public interest that is now being aroused in our crime situation is a healthy sign of future action.

President Hoover's committee on law enforcement has made its first report and suggests that American judicial action be simplified and strengthened.

One of the most interesting factors in the situation is the agreement among many authorities that certainty of punishment, rather than severity alone, is a pre-eminent crime deterrent.

Although law-ridden, America is the greatest law-breaking country in the world.

It is time to stop passing crime breeding legislation, namely, thousands of new laws which make involuntary law-breakers of otherwise law-abiding citizens, on the theory that an "anti this" or an "anti that" law will curb crime. If the criminal obeyed the laws, the penitentiaries would have been empty years ago.

Moral: Law enforcement, not more laws.

A very unusual, yet remarkable accident occurred.—Regina Daily Post.

R. S. Pipkin and wife and Cone Pipkin and wife of Luling, Texas, spent the week end with their parents, Mr. and Mrs. J. C. Pipkin.

THE 4-H CLUBS

It would be difficult to name any single influence which is doing for the development of the young men and young women of America into useful citizenship as much as the 4-H club movement. This year it is estimated that there will be more than 10,000 4-H clubs organized in the United States. As the minimum number of members of a 4-H club is five, that means that 50,000 girls and boys engaged in intensive, useful, competitive effort for self-improvement in the fields which the four "H's" stand for—Head, Heart, Hand, Health.

At present there are eight different classes of competition around which the 4-H clubs are formed: Corn, wheat, calves, pigs, sheep, for the boys; and canning, cooking and sewing for the girls, although there have been and still are many girl members of the grain and livestock clubs. If they did nothing more than train these young folks in the most modern methods, the clubs would be doing a great and valuable service, but they go further than that. They teach the elements of team-work, which in the future, even more than in the past, will be the key to successful farming, and they inculcate principles of good sportsmanship in teaching the unsuccessful competitors to be good losers. More important than those, even, is the stress laid upon exact cost accounting. The boy who has learned by his own 4-H records just what it cost to grow a quarter-acre of corn or to raise a calf is going to be a better business man when he runs his own farm than most farmers are today. And farming is on its way to be more of a business and less of a gamble than it has been.

There are still many rural communities in the United States in which there are no 4-H clubs. Such communities are backward by comparison with those which have encouraged the development of this practical and productive method of helping the boys and girls to grow into better and healthier men and women.

James Watt, Scottish inventor discovered how to apply the power of condensed steam. Our friends know that he knew how to apply our knowledge and service when needed.

Mrs. Newton Harrell of Claude has been visiting in the E. D. Harrell and Mrs. N. A. Croson homes. She and Mr. Harrell left Monday for a visit in Temple.

H. D. Robbins of Groom visited in the home of Mr. and Mrs. Rhea Robbins Tuesday. He is a brother of Mr. Robbins.

R. S. Pipkin and wife and Cone Pipkin and wife of Luling, Texas, spent the week end with their parents, Mr. and Mrs. J. C. Pipkin.

THE 4-H CLUBS

It would be difficult to name any single influence which is doing for the development of the young men and young women of America into useful citizenship as much as the 4-H club movement. This year it is estimated that there will be more than 10,000 4-H clubs organized in the United States. As the minimum number of members of a 4-H club is five, that means that 50,000 girls and boys engaged in intensive, useful, competitive effort for self-improvement in the fields which the four "H's" stand for—Head, Heart, Hand, Health.

At present there are eight different classes of competition around which the 4-H clubs are formed: Corn, wheat, calves, pigs, sheep, for the boys; and canning, cooking and sewing for the girls, although there have been and still are many girl members of the grain and livestock clubs. If they did nothing more than train these young folks in the most modern methods, the clubs would be doing a great and valuable service, but they go further than that. They teach the elements of team-work, which in the future, even more than in the past, will be the key to successful farming, and they inculcate principles of good sportsmanship in teaching the unsuccessful competitors to be good losers. More important than those, even, is the stress laid upon exact cost accounting. The boy who has learned by his own 4-H records just what it cost to grow a quarter-acre of corn or to raise a calf is going to be a better business man when he runs his own farm than most farmers are today. And farming is on its way to be more of a business and less of a gamble than it has been.

There are still many rural communities in the United States in which there are no 4-H clubs. Such communities are backward by comparison with those which have encouraged the development of this practical and productive method of helping the boys and girls to grow into better and healthier men and women.

James Watt, Scottish inventor discovered how to apply the power of condensed steam. Our friends know that he knew how to apply our knowledge and service when needed.

Class Tourney Held This Week in Canyon High

This week an intramural basketball tourney is being held. Five teams have entered—seniors, juniors, sophomores, freshman and grade. No man making a letter is allowed to enter. The seniors are handicapped by lack of big men, as Pud Cross is their least player. The juniors are quite confident that they have a walk-over. The sophomores team members have all had their dark coats cleaned recently so that when they receive the medals given to the members of the winning team the medals will have an appropriate background. The Fish are putting all of their hopes in the theory of concentration—that is if one concentrates on something hard enough—they shall be able to accomplish it. They hold daily concentration parties.

The grade team says that they really enjoy playing against boys larger than they are, as it shows their brilliant headwork and plans.

A joyous event had taken place in the home of the film producer. "Here is the son and heir, sir," said the nurse, smiling coyly.

The producer gave it a perfunctory glance. "Sorry," he said, absently. "Not quite the type."—Tatler.

Dr. R. P. Jarrett Gives Helpful Talk On Career Choice

The student body and faculty were delighted to have Dr. R. P. Jarrett, Dean of West Texas State Teachers College, speak in chapel last Thursday morning. Dr. Jarrett has charge of the chapel programs at the College, and he knew that students do not like lectures; so his speech was not a lecture. He talked to the High School group, emphasizing scholarship, a life's work, thriftiness, and a hobby. These points lead to happiness and success in life.

The students appreciate the interest in them that Dr. Jarrett showed in his talk, and they appreciate the helpful points which he discussed.

GIRL SCOUT NEWS

The Girl Scouts met Saturday in the high school building. They chose sides and played basketball. It was an exciting game and the score was tied.

The girls voted on having the meetings on Monday at four o'clock. This week the change was made and they met at Mary Orton's home. To pass part of her test Mary is planning a project picnic for Saturday. On a project picnic everyone must pass some part of a test.

Survey of the Elementary Grades Now Completed

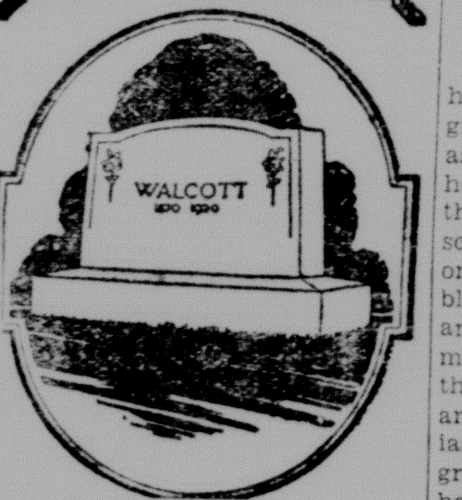

The clerical work connected with the regular mid-term educational survey of the elementary grades has been completed. All papers from the four hundred and forty-three pupils concerned have been graded, checked, and filed. Class and individual progress, graphs and age-grade graphs were made for all grades. A systematic study of the scores was then made by the teachers, who endeavored to find the reason for an individual's low score in a certain subject in order to formulate plans whereby they might assist that individual in bringing his score up to standard in the next survey.

Teachers and school authorities recognize the fact that efficient teachers must know what learning is taking place. In order to gain this knowledge it is essential that the learner's ability before teaching be compared with his ability after teaching. While the main purpose of our testing program is not simply for comparison, yet it is interesting and gratifying to see how the boys and girls in the Canyon school compare with boys and girls of their own age and grade throughout the country. In nearly all sections of the grades our class median was four to seventeen points above the standard median set for that grade. A few fell below standard in one or two subjects, but taken as a whole the survey is very satisfying and shows that the supervisory testing program is getting big results.

The first cement plant west of the Mississippi and the second in the United States was built at San Antonio. Texas now has nine such plants—two each at San Antonio, Houston and Dallas, and one each at Fort Worth, El Paso and Waco. Production in 1929 was 6,245,604 barrels.

Mother—Willie, I heard that instead of going to Sunday school this morning you played football.

Willie—That isn't true—and I've got a string of fish to prove it.

DON'T GOSSIP

"What you said plus what the other fellow thought you meant often make a poor story—don't gossip." Thus read a very appropriate poster in the halls this week. There is no meaner little thing than gossiping or is there a better sign of ill breeding or plain ignorance in a person than gossiping. Often this sin is attributed solely to the female sex and the Japanese even entertained this idea to the extent of spelling their word for noise with the symbol meaning three women. That is a mistake. If boys are not gossiping why do they stand around in groups busily talking? Speaking of the weather I presume. Nothing of the sort—they are doing the same thing the girls do when they gather in such groups.

Sports Letter Men Entertained With Rotary Luncheon

Tuesday the Rotary club were hosts to the Eagles at a delightful luncheon. This season in every game both football and basketball the Eagles have held these men's support. To have the home town business men back of a team is essential. In every out-of-town game quite a number of these men have taken their cars and stood on the side lines backing the Eagles to the end. The Eagles are proud of this support and hope to retain it through out the future.

DO FRESHMAN RATE?

Do you know that Canyon high has a very inquisitive group of girls? For instance, the other day as I was going down the hall I heard someone make the remark that there were two new boys in school. "Oh, are they cute?" asked one. Another asked, "Do they have black hair; where are they from; are they well to do?" But that left me to know that they didn't know them as I did. Then I said, "They are only freshman." Their enthusiasm seemed to fall as several groans of disappointment were heard.

It's too bad that freshmen can't make a hit, but somehow it just can't be done. But that should not be any discouragement, for to become a senior, we all have to be a freshman. From knowing these chaps they're not alone by feeling as indignant as a senior.

If they keep on and make buses any larger, locomotives will have to stop, look and listen at crossings.

Back Quit Hurting

"I was in a very weak condition from a serious sickness," writes Mrs. I. Leonard, of 571 Joseph St., New Orleans, La. "I was so weak, I wanted to sleep all the time. I did not have strength to do anything. My back ached nearly all the time. I was just in misery."

"My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. My back quit hurting, and I haven't had any more trouble since I took Cardui."

Special Latin Classes Held for Coming Tourney

On Monday, Tuesday and Wednesday mornings all the Caesar pupils of Canyon Hi set their alarm just 30 minutes earlier than usual, and for a very good reason, too—they are holding an extra thirty minute class from 8:30 to 9:00. This may seem unusual, but they have an object in view. In the spring a Latin tournament is going to be held in Lubbock and Miss Jordan's plans to send two winners to it. This extra class gives more time to review and get ready for the local contest. In this local contest a test will be given and the two persons making the highest grades will be allowed to go to Lubbock. At Lubbock a second test is given the persons making the highest grade. Their paper will be submitted to state where they are again graded and a final winner is announced. At Lubbock, cups that will simply look grand in our new trophy cases, so Caesar pupils—get busy.

MRS. STRAIN ENTERTAINS

The grade school faculty were delightfully entertained by Mrs. C. E. Strain last Saturday evening. After a lovely three course dinner, forty-two was enjoyed by the following: Misses Handley, Crawford, McClanahan, Gamble, O'Donald, Donnell, Weter; Mesdames Collins, Beason, Murrell, Hubert Hamill, Ray Davis, Irb Carruth, T. H. McDonald, and Fry, and Messrs. Hubert Hamill, Ray Davis, Thomas, Carruth, McDonald.

P. T. A. Has Mr. Duflo and Rev. Jameson to Talk

The regular P. T. A. meeting was held last Thursday afternoon. Several were present and heard a very interesting program. The meeting opened with a song, "America, the Beautiful," followed with a beautiful prayer by Rev. B. F. Fronabarger. A magazine article on the "Founding of the P. T. A. Organization" was read by Mrs. Murrell. According to this report every state but Nevada is now fully organized. A very interesting and extremely educational talk was made by J. L. Duflo on "Parent Child Relation." Rev. Jameson also gave a very influential address as to "What Protection the Church Gives Us."

The next regular meeting will be held Thursday, March 21st. All members are urged to attend.

FAMOUS TROUPE OF BLACK COMEDIANS TO BE HERE

Canyon High School has been fortunate enough to secure an engagement with a famous troupe of black-faced comedians. Owing to their numerous engagements these noted personages have not yet set a date for the performance, but folks, you had better start saving your pennies, because you don't want to miss it!

Phyllis (at dance)—I can't understand why you stayed outside so long with such a splendid dancer as Guy!

Irene—He showed me some new steps—and we sat on them!

When one hears something some one else said about them, it often deeply hurts their feelings. So, you see, if people could learn to concentrate upon and try to improve their own faults and leave the other fellow's alone, a great deal of hurts would be eliminated in Canyon high and in the whole world.

In all the years Canyon High has been operating there has never been a perfect person on the roll as student or instructor, so you see that no one has room to talk. What one does is often bad enough with out you making it worse. When a good thing is done, do not try to blacken it because good things are very rare.

Texas has 974,000 milk cows, increase of 19,000 over January 1, 1928, figures. Of all kinds of cattle Texas had 5,667,000 head on January 1, 1930—almost one-tenth of the 57,967,000 in the entire nation.

LIGHT..

The Beacon of Civilization

Down through the centuries the symbol of light has lifted the eyes and hearts of men beyond the horizon of today. Down through the ages light has remained a beacon of civilization, urging mankind to do and dare, to strive to pierce the wall of ignorance with which man is surrounded.

This company fully realizes its responsibility in giving Canyon abundant light at all times. Nothing but an act of God can stop us in the performance of this duty. We consider this service a privilege, a worth-while task upon which we must unceasingly exert our every energy. Men, money and time have not been spared; nothing has been left undone to give you perfect Electric Light Service, when you want it—and need it.

If they keep on and make buses any larger, locomotives will have to stop, look and listen at crossings.

Back Quit Hurting

"I WAS in a very weak condition from a serious sickness," writes Mrs. I. Leonard, of 571 Joseph St., New Orleans, La. "I was so weak, I wanted to sleep all the time. I did not have strength to do anything. My back ached nearly all the time. I was just in misery."

"My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. My back quit hurting, and I haven't had any more trouble since I took Cardui."

CARDUI

Helps Women to Health
Take Thedford's Black-Draught for Constipation, Indigestion, and Bloating.

Special Latin Classes Held for Coming Tourney

On Monday, Tuesday and Wednesday mornings all the Caesar pupils of Canyon Hi set their alarm just 30 minutes earlier than usual, and for a very good reason, too—they are holding an extra thirty minute class from 8:30 to 9:00. This may seem unusual, but they have an object in view. In the spring a Latin tournament is going to be held in Lubbock and Miss Jordan's plans to send two winners to it. This extra class gives more time to review and get ready for the local contest. In this local contest a test will be given and the two persons making the highest grades will be allowed to go to Lubbock. At Lubbock a second test is given the persons making the highest grade. Their paper will be submitted to state where they are again graded and a final winner is announced. At Lubbock, cups that will simply look grand in our new trophy cases, so Caesar pupils—get busy.

MRS. STRAIN ENTERTAINS

The grade school faculty were delightfully entertained by Mrs. C. E. Strain last Saturday evening. After a lovely three course dinner, forty-two was enjoyed by the following: Misses Handley, Crawford, McClanahan, Gamble, O'Donald, Donnell, Weter; Mesdames Collins, Beason, Murrell, Hubert Hamill, Ray Davis, Irby Carruth, T. H. McDonald, and Fry, and Messrs. Hubert Hamill, Ray Davis, Thomas, Carruth, McDonald.

P. T. A. Has Mr. Duflo and Rev. Jameson to Talk

The regular P. T. A. meeting was held last Thursday afternoon. Several were present and heard a very interesting program. The meeting opened with a song, "America, the Beautiful," followed with a beautiful prayer by Rev. B. F. Fronbarger. A magazine article on the "Founding of the P. T. A. Organization" was read by Mrs. Murrell. According to this report every state but Nevada is now fully organized. A very interesting and extremely educational talk was made by J. L. Duflo on "Parent Child Relation." Rev. Jameson also gave a very influential address as to "What Protection the Church Gives Us."

The next regular meeting will be held Thursday, March 27th. All members are urged to attend.

FAMOUS TROUPE OF BLACK COMEDIANS TO BE HERE

Canyon High School has been fortunate enough to secure an engagement with a famous troupe of black-faced comedians. Owing to their numerous engagements these noted personages have not yet set a date for the performance, but folks, you had better start saving your pennies, because you don't want to miss it!

Phyllis (at dance)—I can't understand why you stayed outside so long with such a splendid dancer as Guy!

Irene—He showed me some new steps—and we sat on them!

When one hears something some one else said about them, it often deeply hurts their feelings. So, you see, if people could learn to concentrate upon and try to improve their own faults and leave the other fellow's alone, a great deal of hurts would be eliminated in Canyon high and in the whole world.

In all the years Canyon High has been operating there has never been a perfect person on the roll as student or instructor, so you see that no one has room to talk. What one does is often bad enough with out you making it worse. When a good thing is done, do not try to blacken it because good things are very rare.

Texas has 974,000 milk cows, increase of 19,000 over January 1, 1928, figures. Of all kinds of cattle Texas had 5,667,000 head on January 1, 1930—almost one-tenth of the 57,967,000 in the entire nation.

A Real Home is the HOME you own!

PRIDE of possession is never stronger or more fundamentally satisfying than in the man who owns his own home. He sees his wife and children flourish in the wholesome environment he has chosen for them; his working hours are enriched by ambition, his leisure hours by contentment.

LIGHT..

The Beacon of Civilization

Down through the centuries the symbol of light has lifted the eyes and hearts of men beyond the horizon of today. Down through the ages light has remained a beacon of civilization, urging mankind to do and dare, to strive to pierce the wall of ignorance with which man is surrounded.

This company fully realizes its responsibility in giving Canyon abundant light at all times. Nothing but an act of God can stop us in the performance of this duty. We consider this service a privilege, a worth-while task upon which we must unceasingly exert our every energy. Men, money and time have not been spared; nothing has been left undone to give you perfect Electric Light Service, when you want it—and need it.

CANYON, TEXAS

Sunny Hill News

Rev. T. D. Sumrall, pastor of the First Baptist church at Happy, will preach here Sunday afternoon.

Mr. and Mrs. Charles Miller and children, of Plainview, were guests in the home of J. T. Sykes during the week end. Mrs. Miller is Mr. Sykes' sister.

Mr. and Mrs. Joe Baker were guests in the home of Mrs. Baker's parents, Mr. and Mrs. Charles Stallings. Miss Jonnie Franze and Miss Betty Joe Baker were guests also.

Miss Corrine Hollabaugh was at home over the week end.

C. I. Kaufman was visiting in Canyon Saturday.

Mr. and Mrs. Jo Currie were visiting in Canyon Sunday.

Among those who were visiting in Amarillo during the week end were: Mr. and Mrs. O. M. Scott, Hershel McCarey, Grady Hicks, Mr. and Mrs. Clark Neff, Mr. and Mrs. S. L. Robinson, and Mr. and Mrs. J. B. Knox.

Miss Grace Knox, of Amarillo, spent the week end in her parental J. B. Knox home.

Mrs. C. G. Gillespie is spending this week with her parents, Mr. and Mrs. J. B. Knox.

Lysbeth Yates spent the week end with Miss Daphne Magness.

Mr. and Mrs. F. E. Culp and family were guests in the J. B. Knox home Friday night.

Mr. and Mrs. J. B. Knox and daughters, Sue and Grace, visited Mr. and Mrs. G. N. Caylor Sunday afternoon.

If one nation doesn't prepare for war, that is folly. Yet, if all prepare, that is folly, too. In other words, you must be a fool to keep from being a fool.—Colorado Springs Gazette.

Wayside Items

Winter has turned back, heavy ice once lately and freezing cold since March came in. Luther Aiken's radiator bursted Sunday morning. Moderating some at present.

Wayside Demonstration Club met Monday afternoon at Mrs. Susie McGeehee's. Thirty-eight ladies were present. Visitors: Mrs. G. G. Foster of Canyon, Mrs. Grace Couterman of Happy, Mrs. Aline Littlefield, Wayside. The last named was named was added to our list. Miss Phillips was present and demonstrated rhubarb and asparagus, cooking and serving it in a most satisfactory manner. A delicious plate lunch was served. The social hour is always an enjoyable time with the entire club.

J. W. McCrery and G. G. Foster and their wives, of Canyon, were at Wayside Monday. The ladies visited the Wayside Club while the gentlemen looked after business interests.

Thirty-six attended the social Saturday night at W. I. Lane's, celebrating the birthday of Irving Lane and Aline McGeehee. Six tables of "forty-two" players. Delightful refreshments of cream and cake were served at a late hour.

Miss Dena Faye Jamison from near Amarillo, accompanied Miss Aline McGeehee home and spent the week end.

Harvey Newsom and family left some days since for Norton, Texas, visiting relatives. Irving Lane will look after home affairs while Mr. Newsom is away.

We regretted Mrs. Brown Byrd was called home from our club Monday, soon after she reached the place.

Mrs. Ruth Aiken was a welcome

visitor of Wayside Club Monday. She made a trip to Tulsa Sunday. She seems to be doing well. With no backset she will be able to go home in a week.

Mrs. Nellie Watson returned home Monday, we understand. We trust she will soon be strong again.

Mr. Henry Cook and family, wife and six children, from Lexington, Oklahoma, have been visiting his aunt, Mrs. Lou Gillham, for several days. Recently from the Rio Grande valley, including Brownsville and Corpus Christi, in search of employment. Finding none, they are returning to Oklahoma.

Ferris Pounds, wife and babies visited Wayside relatives during the past week.

W. I. Lane and family are attending the Stockmen's Convention in Amarillo Tuesday.

J. C. Knox, former Waysider, has sold out at Plainview, and has bought a farm near Lockney. He will run a farm, with a dairy in connection.

Myles and Merlon McGeehee, in school at Lubbock, visited the paternal M. L. McGeehee home the past week end.

M. L. McGeehee made a business trip to Springer, N. M., last Saturday, returning Monday night, leaving Tuesday morning. Dewit accompanied him. They will visit J. M. McGeehee at Gallegos, N. M.

Miss Phillips left the club with the intention of planning Mrs. Fannie Franklin's yard, Monday afternoon, after which she proposed going to Claude, her home.

Fairview Breezes

A small crowd attended the services at the school house Sunday morning. Rev. Mr. Lindley delivered a good sermon to those present. He will preach for us again Sunday, March 23, at 11 o'clock. Everyone is urged to come and bring someone with you.

Mr. and Mrs. W. H. James made a business trip to Amarillo Monday.

Mr. and Mrs. Max Barnard of Happy spent Sunday and Sunday night in the parental W. H. Barnard home.

Opal Sutton spent Sunday with Iva Lee James.

Argel Brawner and M. J. Wesley, who have been working at Littlefield, spent the week end in Fairview with relatives.

Inez Wesley, Alice Rogers, Mr. and Mrs. A. E. Wesley, and Mr. and Mrs. H. H. Sutton were guests Sunday in the home of Mrs. Belle Washburn.

Mrs. Herb Franklin and daughter spent Friday afternoon with Mrs. Albert Legate.

Mrs. John Davis, Mrs. Serena Bryan and Mrs. Bill James were visitors in the Albert Legate home Tuesday.

A bounteous birthday dinner was prepared for Mr. C. M. Rogers last Wednesday. Guests at the dinner were Mr. and Mrs. Red Wilson of Happy, Mr. and Mrs. E. P. Wesley and sons, and Mrs. Max Barnard of Happy, Mr. and Mrs. Mack Rogers of Canyon, Annie Washburn, Opal Sutton and Mr. and Mrs. Leroy Wesley.

Mr. and Mrs. C. M. Rogers, Frank Rogers and Mrs. Leroy Wesley were business callers in Canyon Tuesday.

Miss Alice Rogers and Woodrow Wesley, who are attending school in Happy, spent the week end with their parents.

Mr. and Mrs. W. M. Kinsey and Mr. W. A. Ballard left Wednesday morning for Mr. Ballard's home in East Texas. They expect to stay a few weeks.

Mrs. C. M. Rogers visited Thursday with Mrs. Albert Legate.

Alvis Glen Ballard spent Saturday with Jack Sutton.

We have three new pupils in school this week, Thelma, Evelyn and Mayne Sluder. We are glad to have them with us.

Othell Wesley is on the sick list. Eva and Edwin Walters of Happy spent the week end with their grandmother, Mrs. Serena Bryan.

Lloyd and Clyenma Belle James were guests Sunday in the home of Mrs. Serena Bryan.

Miss Allie Hancock spent the week end in Slaton.

Misses Thelma Poteet and Oleta Russell of Slaton and Oscar Hancock and Hester Knight of Vigo Park, were visitors at the Fairview school Friday.

C. L. Wesley and Louis Folk of Seminole were visiting in this community last week.

Mrs. H. H. Sutton and son and Annie and Edgar Washburn visited Saturday afternoon with Mrs. C. M. Rogers.

J. W. Wesley was a business caller in Amarillo Monday.

Mrs. G. E. Wesley spent Sunday in the H. E. Evans home.

Martha Sutton and Iva Lee James were callers in Happy Saturday.

Konjola Makes Good After All Else Failed!

St. Louis Lady Glad to Relate Her Fine Experience With New and Different Medicine.

MRS. DORA BAUER

Konjola is a different medicine simply because it scores victory after victory in cases that have defied and resisted all medicines and treatment tried. This is not a boast. It is a fact established and proved in thousands of cases like that of Mrs. Dora Bauer, 3403 St. Vincent avenue, St. Louis. Read her grateful words:

"How I wish that every sufferer from neuritis could know what Konjola did for me. For ten years I endured agonies from this awful ailment. I had to keep my arms wrapped tightly to ease the pain. My digestion was bad, too, and this weakened me, making me still easier prey for neuritis. I can not remember how many medicines and treatments I tried, but found nothing to give relief, until I found Konjola. In just five weeks this remarkable medicine restored digestion, rid my system of poisons and impurities, and then the neuritis left as if by magic. What a boon Konjola proved to be. No wonder Konjola is known as the medicine with more than a million friends. It should have a billion."

Konjola is sold in Canyon at Jarrett's Drug Co., and by all the best druggists in all towns throughout this entire country.

Which one of the rising generations do you suppose Methuselah worried the most about?—Tampa Times.

GLEE CLUB TO GIVE CONCERTS OUT OF TOWN

TO SING IN CHILDRESS AND MEMPHIS

Violinist and Dancer to Accompany Club and Give Numbers.

Twenty-five girls making up the Girls' Glee Club of the West Texas State Teachers College will make a short concert trip this week. They will leave Canyon Thursday morning and return Saturday, making the trip by train. They will give concerts in Childress and Memphis.

Miss Pauline Brigham, director, Miss Thelma McMinn, pianist, and Miss Naomi Malone, representing the dancing classes of the Physical Education department, will accompany the club. Miss Ruth Strain, alto in the club, will be violin soloist, and Miss Thelma McMinn will be piano soloist. The program will be as follows:

Lakeside News

There will be a box supper at Lakeside school Friday night, Mar. 7th. Everyone is invited to attend. Mr. and Mrs. C. W. Stallings were guests of Mr. and Mrs. Dowling, Sunday.

Mr. Byars and daughter were in Canyon Saturday.

Mary Dale Anderson and Loraine Campbell are back in school after being absent several days because of the chickenpox.

Mr. and Mrs. Fred Foster visited Mr. and Mrs. L. T. Campbell Sunday.

Mr. and Mrs. A. J. Ford and family shopped in Amarillo Saturday.

C. O. James and family have moved to Amarillo.

Fern Byars celebrated her sixth birthday last Friday.

Misses Katherine and Montie Rockwell spent Sunday with Mrs. Anderson.

The butcher, we read, still uses everything about the pig except the squeal. This is used by the customer when he hears the price of pork—Punch.

Add 1929 statistics: During the year there were two notable income tax reductions. One staged by congress, the other by Wall street—Leesburg Commercial.

Coach Burton Has National Record as Team Producer

It is believed that Coach Burton has established a national record in basketball, covering a period of nine years. During this time, West Texas State Teachers Basketball team, coached by Burton, has played a total of 191 games and has won 160 of them.

For the past eight years the College has been a member of the Texas Intercollegiate Athletic Association, becoming a member when Coach Burton came to this institution in 1921. As a result, no team in Texas can boast as many games won as they have lost against Burton's Buffaloes.

Coach Burton never played a game of basketball in his life, but he was a lineman on the famous Oklahoma University football team in 1910, 1911, and 1912. His system of play is original with him, and is the result of his studies and observations of the game, and his system has undergone but few changes since he introduced it at West Texas. Yet it seems just as baffling to his opponents as it was nine years ago.

Needless to say, Canyon is a wonderful basketball town.

Zita Breezes

Mr. and Mrs. E. L. Moon of Wichita Falls were visiting in the community last week.

Mr. and Mrs. W. H. Upchurch and family of Canyon and Mrs. G. N. Wypple and son Kenneth, of Amarillo spent Sunday at the C. C. Stewart home.

W. E. McCormick and Mrs. C. C. Kellogg and baby son visited in the Zita community Thursday.

Miss Catherine Rockwell spent Tuesday night with Mrs. John Moody.

Miss Erma McCormick spent the week end with Miss Beatrice Fulton.

Mrs. C. C. Stewart and daughter Ina, visited Mrs. O. T. Roddy on Tuesday.

Mrs. H. B. Hales and children visited Mrs. C. C. Stewart Friday.

The Zita P. T. A. met March 6, as a regular meeting night. Several of the pupils gave the declamation, "The Name of Old Glory," and a song, "Two Little Blue Shoes," sung by Odella Taylor. The Red Cross nurse and Mrs. Sternberg of the Canyon P. T. A. made enjoyable talks. The Zita community is looking forward to her coming in about three weeks. The refreshments were chili and coffee.

It was decided by the ladies of the community that the next program should be in the line of the men. This has come to be an annual event at Zita. For the past three years the men have prepared a most interesting program and delicious refreshments. We are all looking forward with much anticipation to the coming event.

The New York World mentions the firm of Bee & Blank, "publicity advertisers to Colonel Lindbergh." We suppose its connection with this famous client must bring the firm a tidy bit of publicity—Detroit News.

Now what we would like to see is a little parity for pedestrians—American Lumberman.

Mrs. Clay Ridgway of Hereford spent the past week visiting with Mrs. T. A. Ridgway.

S. B. McClure was in Tulia on business Monday morning.

SQUILL KILL

Rats Cost Millions Annually

You can rid your premises of this costly pest without danger to your poultry or domestic animals by using Squill Kill, a Red Squill preparation. Red Squill is recommended by the U. S. Department of Agriculture in farm bulletin No. 1533, as being taken readily by rats and relatively harmless to human beings and domestic animals.

Rats cost the American people \$200,000,000 annually. They distribute the virus of plague of hydrophobia, of trichinosis, of equine influenza. When you can be rid of these pests by using Squill Kill at a cost of 50 cents, can you afford to have them?

Squill Kill carries a positive guarantee. If used according to instructions, your money will be refunded if Squill Kill does not kill rats and mice.

"I Feel Like I Have a New Life Before Me," Says Woman

Mrs. Taylor Says She Suffered 30 Years When She Began Taking Orgatone (Argotane)—Now Feels Better in Every Way.

"I am simply feeling so improved as far as my health is concerned, that I feel like I have a new life before me, since taking Orgatone (Argotane)," said Mrs. A. E. Taylor, residing at 1904 Jackson street, Amarillo, Texas, in her statement to the Orgatone (Argotane) representative.

"Yes, sir, I am feeling like a different woman and I want everybody to know it," continued Mrs. Taylor. "I have suffered with a badly disordered stomach and constipation for thirty years and one bottle of Orgatone (Argotane) has done me more real genuine good than anything else I have ever tried. I guess I ought to know real medicine when I have tried it as I certainly have taken enough in my years of illness."

"I had been suffering for so many years with a very bad stomach and other troubles and my condition had become wretched. After meals gas would form and bloat me up till I would get so miserable and dizzy at times I could hardly stand on my feet. I lost all desire for food of any kind and the little I did eat caused me constant misery in my stomach and I lost energy and all interest in everything."

"I tried most every kind of medicine and did everything I knew how to do trying to get relief, but I kept getting worse all the time."

"Orgatone (Argotane) has completely changed life around for me and I just can't find words to express my gratitude for it. I have been relieved of those terrible bloating spells and those sinking bilious attacks have left me as well as my constipation. My appetite is better now and I can eat as much as I ever could and I relish my meals. I wish I could thank the maker of Orgatone (Argotane) for placing this wonderful medicine in reach of suffering people."

Genuine Orgatone (Argotane) may be bought in Canyon at the Jarrett Drug Store.

When someone is trying to get you to invest money in a good buy, make him specify as to the spelling of that last word.—Arkansas Gazette.

NOTICE OF SHERIFF'S SALE

State of Texas
County of Randall

By Virtue of an Order of Sale issued out of the Honorable District Court of Randall County, on the 11th day of February, 1930, by the Clerk thereof, in the case of Panhandle Construction Company versus Wm. Hatcher et al No. 120, and to me, as Sheriff, directed and delivered, I will proceed to sell within the hours prescribed by law for Sheriff's Sales, on the FIRST TUESDAY IN APRIL, A. D. 1930 it being the 1st day of said month before the Court House door of said Randall County, in the town of Canyon, the following described property, to-wit:

All of Lot Thirteen (13) in Block Sixty-One (61), of the Original plat of the town of Canyon City.

AND WHEREAS, on the 29th day of January, 1930, an Order of Sale was issued in this cause, but the same was erroneous in description of the property, and has been returned unsatisfied:

Levied on as the property of Wm. Hatcher et al to satisfy a Judgment amounting to \$258.29 in favor of Panhandle Construction Company and cost of suit.

Given under my hand, this 17th day of February, 1930.
4814 JOHN FRY, Sheriff.

New Heridioscope Is Now Owned by Agriculture Dept.

The agriculture department has a new heridioscope for use in the study of genetics. This is a device put out by the American Genetic Association to assist in the teaching of the Mendelian principles of inheritance.

One of the worthwhile features of this device is that it gives the many combinations of the different recessive and dominant characters in the process of inheritance.

"Representation by districts enables the rural section to control the city." Maybe that's why farmers get rich at the expense of big-town manufacturers. — Rochester Times-Union.

Dean Green Tells Of Visit in East In Girls' Chapel

Incidents of interest pertaining to her trip to Atlantic City, N. J., were told by Mrs. Geraldine Green, dean of women, at the women's chapel meeting Saturday morning. Mrs. Green spoke of the board

walk eight miles in length which runs along the beach at Atlantic City and which is so well known. While in New York she had breakfast with Misses Ruth Lowes and Maude Noyes, members of the faculty here who are studying there. She spoke at length on styles in the east.

The first communications merger was probably a women's sewing circle.—Florence Herald.

Backache

If functional Bladder Irritation disturbs your sleep, causes Burning or Itching Sensation, Backache or Leg Pains, making you feel tired, depressed and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today at any drug store. Put it to the test. See how fast it works. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c.

ANALYZE THE ALLOWANCE ON YOUR USED CAR

If a dealer pays you more than the true worth of the car he must make up the difference by extra charges on the new car or re-sell it to some one else at too high a price

PERMANENT value is always better than a temporary bargain in the purchase of an automobile. It pays to look ahead and consider reliability and ultimate up-keep costs, as well as comfort, safety, speed, and beauty of line and color.

Since most automobiles are bought for replacement, the value set on your used car is a factor in almost every purchase. Frequently it is given an importance beyond its true worth.

Used cars have a definite market value and you are justly entitled to an allowance based on that value. It is not fair that you receive less. It is not to your best interests to receive more.

IF a dealer pays you more than the true worth of the car he must either re-sell it to some one else at too high a price or make up the difference on the new car. This he cannot do unless he is allowed an excessive profit on the car or on financing, extra equipment and other charges. In either case, you pay the bill, for no way has yet been found to give something for nothing. The money must come from somewhere.

You may not get the largest used-car allowance from the Ford dealer, but that very fact should give you confidence that you are receiving full value in the new car. Ford charges are not marked up or increased to cover a high trade-in allowance on your old car.

Because there is no waste, extravagance or undue profit in manufacturing, distribution or selling, every dollar you pay for a Ford brings a full dollar in return. In lower first cost, in reliability and long life, in the low cost of operation, service and replacement parts, the Ford will save you much more than the seeming difference in trade allowance.

FURTHERMORE, at least \$75 extra value is given to you in the new Ford in the Triplex shatter-proof glass windshield, the Rustless Steel, the five steel-spoke wheels, and the four Houdaille hydraulic double-acting shock absorbers. The unusually large number of ball and roller bearings, and the extensive use of fine steel forgings instead of castings or stampings, are other features that show the extra quality built into the Ford car.

A GLORIFIED CLEAR SKIN

A clear, smooth, lovely skin enhances personal attractiveness! More happiness and friends may depend upon it.

The way to the skin is through the blood. Rich, red, healthy blood nourishes the body and aids in protecting it against infection and disease.

When you take S.S.S. to get rid of these outside blemishes you are building up the system to ward off graver diseases.

S.S.S.

If you are one of the embarrassed—and men are not exceptions—with skin blemishes that linger, and sometimes leave scars, you will want to possess body power to clear up your skin.

S.S.S. will help Nature give you this power. Internal healthfulness will then reflect in your skin a natural loveliness—a skin glorified.

Millions of people have taken advantage of the wonderful medicinal properties in S.S.S. It gives to Nature what it needs to build you up so that your system may throw off the cause.

When your system is filled with rich, red blood, the body's

power of resistance to infection and disease is raised. Your appetite should improve. Firm flesh should take the place of that which was once flabby. You should sleep soundly. You should feel strong. Your nerves become steady.

Take S.S.S. daily at mealtime. It promotes healthy body building. Seek energy, vitality and a clear skin through the great blood tonic which is made from strictly fresh vegetable drugs and has stood the test for over 100 years.

All good drug stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

"I Feel Like I Have a New Life Before Me," Says Woman

Mrs. Taylor Says She Suffered 30 Years When She Began Taking Orgatone (Argotane)—Now Feels Better in Every Way.

"I am simply feeling so improved as far as my health is concerned, that I feel like I have a new life before me, since taking Orgatone (Argotane)," said Mrs. A. E. Taylor, residing at 1904 Jackson street, Amarillo, Texas, in her statement to the Orgatone (Argotane) representative.

"Yes, sir, I am feeling like a different woman and I want everybody to know it," continued Mrs. Taylor. "I have suffered with a badly disordered stomach and constipation for thirty years and one bottle of Orgatone (Argotane) has done me more real genuine good than anything else I have ever tried. I guess I ought to know real medicine when I have tried it as I certainly have taken enough in my years of illness."

"I had been suffering for so many years with a very bad stomach and other troubles and my condition had become wretched. After meals gas would form and bloat me up till I would get so miserable and dizzy at times I could hardly stand on my feet. I lost all desire for food of any kind and the little I did eat caused me constant misery in my stomach and I lost energy and all interest in everything."

"I tried most every kind of medicine and did everything I knew how to do trying to get relief, but I kept getting worse all the time."

"Orgatone (Argotane) has completely changed life around for me and I just can't find words to express my gratitude for it. I have been relieved of those terrible bloating spells and those sinking bilious attacks have left me as well as my constipation. My appetite is better now and I can eat as much as I ever could and I relish my meals. I wish I could thank the maker of Orgatone (Argotane) for placing this wonderful medicine in reach of suffering people."

Genuine Orgatone (Argotane) may be bought in Canyon at the Jarrett Drug Store.

When someone is trying to get you to invest money in a good buy, make him specify as to the spelling of that last word.—Arkansas Gazette.

NOTICE OF SHERIFF'S SALE

State of Texas

County of Randall

By Virtue of an Order of Sale

issued out of the Honorable Dis-

trict Court of Randall County, on

the 11th day of February, 1930, by

the Clerk thereof, in the case of

Panhandle Construction Company

versus Wm. Hatcher et al No. 1208,

and to me, as Sheriff, directed and

delivered, I will proceed to sell

within the hours prescribed by law

for Sheriff's Sales, on the FIRST

TUESDAY IN APRIL, A. D. 1930

it being the 1st day of said month

before the Court House door of said

Randall County, in the town of

Canyon, the following described

property, to-wit:

All of Lot Thirteen (13) in Block

Sixty-One (61), of the Original plat

of the town of Canyon City.

AND WHEREAS, on the 29th day

of January, 1930, an Order of Sale

was issued in this cause, but the

same was erroneous in description

of the property, and has been re-

turned unsatisfied.

Levied on as the property of Wm.

Hatcher et al to satisfy a Judgment

amounting to \$258.29 in favor of

Panhandle Construction Company

and cost of suit.

Given under my hand, this 17th

day of February, 1930.

4814 JOHN FRY, Sheriff.

New Heridioscope Is Now Owned by Agriculture Dept.

The agriculture department has a new heridioscope for use in the study of genetics. This is a device put out by the American Genetic Association to assist in the teaching of the Mendelian principles of in-

heritance.

One of the worthwhile features of this device is that it gives the many combinations of the different recessive and dominant characters in the process of inheritance.

"Representation by districts enables the rural section to control the city." Maybe that's why farmers get rich at the expense of big-town manufacturers. — Rochester Times-Union.

Dean Green Tells Of Visit in East In Girls' Chapel

Incidents of interest pertaining to her trip to Atlantic City, N. J., were told by Mrs. Geraldine Green, dean of women, at the women's chapel meeting Saturday morning. Mrs. Green spoke of the board

walk eight miles in length which runs along the beach at Atlantic City and which is so well known. While in New York she had breakfast with Misses Ruth Lowes and Maude Noyes, members of the faculty here who are studying there. She spoke at length on styles in the east.

The first communications messenger was probably a women's sewing circle.—Florence Herald.

Backache

If functional Bladder Irritation disturbs your sleep, causes Burning or Itching Sensation, Backache or Leg Pains, making you feel tired, depressed and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today at any drug store. Put it to the test. See how fast it works. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c.

ANALYZE THE ALLOWANCE ON YOUR USED CAR

If a dealer pays you more than the true worth of the car he must make up the difference by extra charges on the new car or re-sell it to some one else at too high a price

PERMANENT value is always better than a temporary bargain in the purchase of an automobile. It pays to look ahead and consider reliability and ultimate up-keep costs, as well as comfort, safety, speed, and beauty of line and color.

Since most automobiles are bought for replacement, the value set on your used car is a factor in almost every purchase. Frequently it is given an importance beyond its true worth.

Used cars have a definite market value and you are justly entitled to an allowance based on that value. It is not fair that you receive less. It is not to your best interests to receive more.

If a dealer pays you more than the true worth of the car he must either re-sell it to some one else at too high a price or make up the difference on the new car. This he cannot do unless he is allowed an excessive profit on the car or on financing, extra equipment and other charges. In either case, you pay the bill, for no way has yet been found to give something for nothing. The money must come from somewhere.

You may not get the largest used-car allowance from the Ford dealer, but that very fact should give you confidence that you are receiving full value in the new car. Ford charges are not marked up or increased to cover a high trade-in allowance on your old car.

Because there is no waste, extravagance or undue profit in manufacturing, distribution or selling, every dollar you pay for a Ford brings a full dollar in return. In lower first cost, in reliability and long life, in the low cost of operation, service and replacement parts, the Ford will save you much more than the seeming difference in trade allowance.

Burglars

(Continued from first page)

but it was not until early Sunday morning that the burglary was discovered. From all indications the man who was found in the ward building was the same one who did the burglary and was thought to have been a tramp passing through town.

He was traced by descriptions as far as Dalhart but was lost at that point.

Superintendent Carruth stated that approximately \$150 damage was done to the entire building by these acts.

Grim was the reply of a Scottish grave digger when a certain big game farmer was haggling about the charge for his wife's interment. I well remember the grave digger recounting the incident. I had asked him if he ever had had any difficulty in getting payment for his rather trying work.

"Only yince," he said. "It was when Ewan Swan buried his wife. Ye mind her wid the guid gnan tongue. Efter I had raised my kep as a signal to the mourners to gang, Ewan stayed ahint. Says he to me, 'What will I be awn ye, John?' 'Seven and six,' says I. 'It's ower too much,' says he, 'in licht sandy soil like that,' and he hands me a croon. 'Sandy soil or hard clay, it's seven and six,' I says, 'and doon with another half-croon or up she comes!' And I niver see a half-croon come see smert out of a fermer's pooch."—Scots Observer.

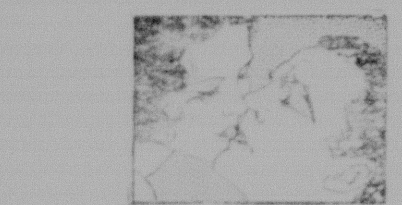

It is increasingly evident that if Uncle Sam expects to be even reasonably dry he must continue to come down with the dust.—Norfolk Ledger-Dispatch.

A Smashed Fender!

Don't worry we can fix it LIKE NEW—because we have PEXTO special tools

Don't let a dented fender or a dented body worry you. We are fully equipped with special PEXTO dent removing tools to fix your car up like new—quickly—expertly. And the moderate cost will surprise you, we feel sure, because we're specialists and know just what to do and when to do it, and we work with PEXTO special dent removing tools. Drive in today.

Only Surmises as to First Spoken Language

Many surmises have been made regarding the oldest language. In an attempt to discover what children would say if uninfluenced by established speech, Psameticus, an Egyptian king, entrusted two newborn infants with a shepherd, with the charge that they were never to hear anyone utter a word. These children were afterward brought before the king and uttered the word "bekos" (baked bread). The same experiment was tried by Frederick II of Sweden and James IV of Scotland and by one of the Mogul emperors of India. Nothing conclusive was proved in either case. The Persians claim that Arabic, Persian and Turkish are the three primitive languages. Their tradition says that the serpent that tempted Eve spoke Arabic, the most persuasive language in the world. Adam and Eve spoke Persian, the most poetic language of all, and the angel Gabriel spoke Turkish, the most menacing language. Scholars formerly agreed that Sanscrit was the oldest tongue, but later discoveries suggest that it, too, is derived from some still more ancient speech.

Authentic Records of Men of Unusual Size

The tallest man about whom the actual facts are known, other than those recorded in Biblical history, was one John Middleton. He lived in the sixteenth century, and was commonly called the child of Hale. It is said that his hands from the wrist to the end of the middle finger were seventeen inches long. His whole height was nine feet and three inches. Pliny, the Roman writer, however, mentions one Gabor as "the tallest man that hath been seen in our age." He measured nine feet nine inches in height. Patrick Cotter, who died in 1903, was probably the tallest Irishman; he measured eight feet eight inches, beating his countryman, Charles O'Brien, whose skeleton in the museum of the royal college of surgeons, London, measured eight feet four inches only.

Record Meteorite

The most remarkable encounter between the earth and a meteorite of which there is any record is probably the one that resulted in the formation of Meteor crater, near Canyon Diablo in northeastern Arizona, a desert region.

This crater is about 4,000 feet in diameter, with walls rising about 150 feet above the plain and descending precipitously 600 feet to the floor.

Rocks at the bottom were crushed to a depth of several hundred feet and show signs of great heating. Within a radius of five miles of the crater thousands of iron meteorites have been picked up.

Meteorites differ greatly from meteors, or shooting stars, in many respects, possibly even in their origin.

Remember the Birds

When a farmer uses wire fences and cleans out his underbrush, he owes it to the birds to build them a wigwam apartment house. Raising a bird family is hard work these days and H. L. Hoard, editor of the Jefferson County Union, suggests these specifications for a winged life refuge, says the Milwaukee Journal:

Around a tree that will endure, though dead for a number of years, pile brush in a cone of eight or ten feet. Cover this with Virginia creepers and English ivy and the robins, thrushes and bluebirds will have both a home and a lunch counter.

Changed

"Women used to be clever," declares Robert Well, "but now they are, for the most part, very obvious; smart but short of mystery, all their little feminine tricks revealed."

"Does your wife kiss you every night when you come home?" asked the newly married man of his more experienced friend.

"Well, er, not always," admitted Mr. Experience. "She used to, but now she only does it when she expects to go shopping next day."—Los Angeles Times.

Also Important

The children's dinner was in progress. They had been provided with a nice fat chicken.

"What part did you have?" asked one little boy of his neighbor.

"The wishbone," was the reply.

"I had a leg," put in another child.

One after the other they explained the various parts.

Presently little Jackie, who so far had not spoken a word, held up a skewer and exclaimed:

"Look, I've got the perch the chicken sat on!"

Favorite Vegetables

Jimmie, age four, is very proud of ability to eat various kinds of food that are placed before him from day to day. The other evening there were several guests at the table, and he was discussing his accomplishments to the discredit of his two brothers, whose tastes are not easily satisfied.

"I like almost everything," said Jimmie. "I even like liver and fat meat. Franklin and Shirley don't. Liver and fat meat are my favorite vegetables."

Holy Cake

Five-year-old Patricia is very religious. At dinner her aunt said: "Now, Pat, there's angel food and layer cake. When you are ready you can have either one." Some time after she said: "Auntie I'll take a piece of holy cake."

Untaught Rustic Youth Rose to Fame as Poet

The first English poet whose name can be found in ancient archives in Caedmon, who lived in Northumbria, near the Streanhalch monastery. Streanhalch is now known as the town of Whitby. Caedmon is regarded more or less as a saint by the Anglo-Saxon church, although for the greater part of his life he lived a monk and died faithfully to his vows on February 11, 680.

The legend of Caedmon's first inspiration to poetry is as follows: At a feast attended by Caedmon, then a raw country youth, the harpist applied to him for a song. Abashed at his inability to compose even a drinking song, Caedmon left the hall and fled to the hills, where he spent the night. In his slumbers, a song called "Creation" came upon him, which he remembered and sang when he returned to his village.

The village bailiff, or reeve as he was then called, took the singing rustic to the Streanhalch monastery, where he was induced by the Abbess Hilda to take holy orders. He dwelt the rest of his life in the monastery composing many fine ecclesiastical poems and translating the Scriptures into the current Anglo-Saxon of the country of that time.—Vancouver Province.

Mysteries of Vitamines Sought by Scientists

Vitamines are one of the essential elements in foods. Lack of them has been proved to cause eye diseases, sterility, rickets, scurvy, beri-beri and stunted growth. They exist in certain foodstuffs only, and even in parts of foodstuffs, such as the husks of rice and potato peelings, which are not generally eaten. Methods of removing these elements from unpalatable parts of foods are most important, as they may thus be added to more palatable diets otherwise inadequate to the maintenance of health.

Science is attempting to solve the mysteries of vitamine production and removal, says a writer in the Washington Post. Ultimately it expects to manufacture these valuable food constituents synthetically in its laboratories. When that day arrives human health will have been promoted immeasurably, for no other single item is more important, particularly to children, than the vitamine.

Firefly in Commerce

Fireflies destroy larvae and insects, which are their natural food. In addition to this, they have a value, dead or alive, in China and Japan, where they are used in the manufacture of drugs, poultices and pills peculiar to the practice of Chinese medicine. Firefly grease (hotaru-no-abura) is used by woodworkers for the purpose of imparting rigidity to objects made of bent bamboo. In China and Japan the catching and selling of fireflies during the summer months is of such extent as to be considered an industry. The chief center of the industry is in the region about Ishiyama, near the lake of Omi, where a number of merchants ship the fireflies to Osaka and Kyoto. Each house employs from 60 to 70 flycatchers, and experts are known to catch as many as 3,000 in a single night.

Still Use Roman Roads

The changes which have come over the planning and construction of great highways built or projected across the continent prove that the first builders of roads were the best, according to Thomas S. Bosworth, in the New York Times. The main highways across Europe, many of them still in use today after 2,000 years, remain as monuments to the supreme mechanical genius of the Americans of their day, the old Romans. Not only did they plan their roads on the principle that the straight line is the shortest between two points, but they built them so well that, with minor changes, the modern cities of Europe still depend upon them for their communication by automobile.

Stars Still Tell Time

In casually looking at your watch to tell the time of day, you probably don't stop to think that your timepiece, if it is accurate, has indirectly received its time from the stars.

In an article in the World's Work, it is pointed out that the naval observatory at Washington, which furnishes the nation its time, makes a check every night by observations of the stars. Three delicate clocks are enclosed in glass cases far beneath the ground, and are kept at an exact temperature. These clocks keep the time which is first determined by astronomers, and hourly throughout the day comes the time across the country, correct to the thousandth part of a second.

Venetian Canals

Venice is built upon islands, which served as refuge for inhabitants of neighboring cities during attacks by barbarians. Its strategic advantage was so great that many fugitives remained, and the lagoons which separated the islands were the natural streets. These islands were formed from the silt and debris brought down by rivers, and the soil is an oozy mud that makes building difficult. Roadbeds would be extremely difficult to make, while canals are, obviously, easy to construct and maintain.

"Annie Laurie"

The song "Annie Laurie" was written about 1700 by William Douglas of Kirkcubright, Scotland, to the lady he loved, the daughter of Sir Robert Laurie. Apparently she did not return his affection, for she married another, one Alexander Fergusson.

Married Seventy Years

William Mitchell of Elizabeth, N. J., and his wife, who celebrated the 70th anniversary of their marriage on Mr. Mitchell's 92nd birthday.

CATHOLIC SERVICES

Services will be held every Friday night at 7:30 at St. Anne Catholic church here beginning tomorrow night. These services will continue weekly during the Lenten season. Everybody is invited to attend.

BATHTUBS AND OTHER LUXURIES

Have you a bathtub in your home? No, that isn't "Foolish question number umpteen." There are nine million homes in America without bathtubs, according to the statistical abstract of the United States. Only two houses out of three have them. A few years ago, as time goes, nobody had bathtubs. There was one in the White House when Lincoln was president, and when President Cleveland wanted to have a second one put in, members of congress made speeches denouncing the bad example of luxury which the president would set! The first bathtub with fixed plumbing was installed in Cincinnati less than 155 years ago and physicians denounced the habit of bathing as injurious to health.

Times change and luxuries multiply. Today fifteen million homes have electric light bulbs, seven million have vacuum cleaners, five million have washing machines, nearly three-quarters of a million have electric refrigerators. The time is coming, and coming soon, when these and other electrical appliances will be regarded by everybody in America as of as great importance as the bathtub, but it may be another hundred years before everybody has them, and even then there will probably be some homes without bathtubs.

SUMMER IRRIGATION RATES ON WATER

At the meeting of the City Commission on Tuesday, March 3rd, it was decided to have the same irrigation rates on water as were given last summer. This contract will be for the months of April, May, June, July, August and September and must be signed and in the City Secretary's office by April 10th, 1930.

In signing these contracts, the consumer agrees to use the water for ordinary household and irrigation purposes jointly or for irrigation purposes alone.

HARVEY CASH,
City Secretary.

Burglars

(Continued from first page)

but it was not until early Sunday morning that the burglary was discovered. From all indications the man who was found in the ward building was the same one who did the burglary and was thought to have been a tramp passing through town.

He was traced by descriptions as far as Dalhart but was lost at that point.

Superintendent Carruth stated that approximately \$150 damage was done to the entire building by these acts.

Grim was the reply of a Scottish grave digger when a certain big-nosed farmer was haggling about the charge for his wife's interment. I will remember the grave digger recounting the incident. I had asked him if he ever had had any difficulty in getting payment for his rather trying work.

"Only yince," he said. "It was when Ewan Swan buried his wife. Ye mind her wid the guid gan tongue. Efter I had raised my kep, as a signal to the mourners to gang, Ewan stayed ahint. Says he to me, 'What will I be awn ye, John?' 'Seven and six,' says I. 'It's ower too much,' says he, 'in licht sandy soil like that, and he hands me a croon. 'Sandy soil or hard clay, it's seven and six.' I says, 'and doon with another half-croon or up she comes!' And I niver see a half-croon come sae smert out o' a fermer's pouch."—Scots Observer.

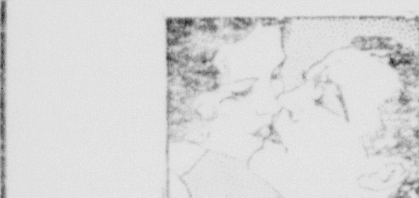

It is increasingly evident that if Uncle Sam expects to be even reasonably dry he must continue to come down with the dust.—Norfolk Ledger-Dispatch.

A Smashed Fender!

Don't worry we can fix it LIKE NEW—because we have PEXTO special tools

Don't let a dented fender or a dented body worry you. We are fully equipped with special PEXTO dent removing tools to fix your car up like new—quickly—expertly. And the moderate cost will surprise you, we feel sure, because we're specialists and know just what to do and when to do it, and we work with PEXTO special dent removing tools. Drive in today.

Only Surmises as to First Spoken Language

Many surmises have been made regarding the oldest language. In an attempt to discover what children would say if uninfluenced by established speech, Psameticus, an Egyptian king, entrusted two newborn infants with a shepherd, with the charge that they were never to hear anyone utter a word. These children were afterward brought before the king and uttered the word "bekos" (baked bread). The same experiment was tried by Frederick II of Sweden and James IV of Scotland and by one of the Mogul emperors of India. Nothing conclusive was proved in either case. The Persians claim that Arabic, Persian and Turkish are the three primitive languages. Their tradition says that the serpent that tempted Eve spoke Arabic, the most persuasive language in the world. Adam and Eve spoke Persian, the most poetic language of all, and the angel Gabriel spoke Turkish, the most menacing language. Scholars formerly agreed that Sanskrit was the oldest tongue, but later discoveries suggest that it, too, is derived from some still more ancient speech.

Authentic Records of Men of Unusual Size

The tallest man about whom the actual facts are known, other than those recorded in Biblical history, was one John Middleton. He lived in the sixteenth century, and was commonly called the child of Hale. It is said that his hands from the wrist to the end of the middle finger were seventeen inches long. His whole height was nine feet and three inches. Pliny, the Roman writer, however, mentions one Gabor as "the tallest man that hath been seen in our age." He measured nine feet nine inches in height. Patrick Cotter, who died in 1903, was probably the tallest Irishman; he measured eight feet eight inches, beating his countryman, Charles O'Brien, whose skeleton in the museum of the royal college of surgeons, London, measured eight feet four inches only.

Record Meteorite

The most remarkable encounter between the earth and a meteorite of which there is any record is probably the one that resulted in the formation of Meteor crater, near Canyon Diablo in northeastern Arizona, a desert region.

This crater is about 4,000 feet in diameter, with walls rising about 150 feet above the plain and descending precipitously 600 feet to the floor.

Rocks at the bottom were crushed to a depth of several hundred feet and show signs of great heating. Within a radius of five miles of the crater thousands of iron meteorites have been picked up.

Meteorites differ greatly from meteors, or shooting stars, in many respects, possibly even in their origin.

Remember the Birds

When a farmer uses wire fences and cleans out his underbrush, he owes it to the birds to build them a wigwam apartment house. Raising a bird family is hard work these days and H. L. Hoard, editor of the Jefferson County Union, suggests these specifications for a winged life refuge, says the Milwaukee Journal:

Around a tree that will endure, though dead for a number of years, pile brush in a cone of eight or ten feet. Cover this with Virginia creepers and English ivy and the robins, thrushes and bluebirds will have both a home and a lunch counter.

Changed

"Women used to be clever," declares Robert Well, "but now they are, for the most part, very obvious; smart but shorn of mystery, all their little feminine tricks revealed."

"Does your wife kiss you every night when you come home?" asked the newly married man of his more experienced friend.

"Well, er, not always," admitted Mr. Experience. "She used to, but now she only does it when she expects to go shopping next day."—Los Angeles Times.

Also Important

The children's dinner was in progress. They had been provided with nice fat chicken.

"What part did you have?" asked one little boy of his neighbor.

"The wishbone," was the reply.

"I had a leg," put in another child.

One after the other they explained the various parts.

Presently little Jackie, who so far had not spoken a word, held up a skewer and exclaimed:

"Look, I've got the perch the chicken sat on!"

Favorite Vegetables

Jimmie, age four, is very proud of ability to eat various kinds of food that are placed before him from day to day. The other evening there were several guests at the table, and he was discussing his accomplishments to the discredit of his two brothers, whose tastes are not easily satisfied.

"I like almost everything," said Jimmie. "I even like liver and fat meat. Franklin and Shirley don't. Liver and fat meat are my favorite vegetables."

Holy Cake

Five-year-old Patricia is very religious. At dinner her aunt said: "Now, Pat, there's angel food and layer cake. When you are ready you can have either one." Some time after she said: "Aunt I'll take a piece of holy cake."

Untaught Rustic Youth Rose to Fame as Poet

The first English poet whose name can be found in ancient archives in Caedmon, who lived in Northumbria, near the Streanhaleh monastery. Streanhaleh is now known as the town of Whitby. Caedmon is regarded more or less as a saint by the Anglo-Saxon church, although for the greater part of his life he lived a monk and died faithful to his vows on February 11, 680.

The legend of Caedmon's first inspiration to poetry is as follows: At a feast attended by Caedmon, then a raw country youth, the harpist applied to him for a song. Abashed at his inability to compose even a drinking song, Caedmon left the hall and fled to the hills, where he spent the night. In his slumbers, a song called "Creation" came upon him, which he remembered and sang when he returned to his village.

The village bailiff, or reeve as he was then called, took the singing rustic to the Streanhaleh monastery, where he was induced by the Abbess Hilda to take holy orders. He dwelt the rest of his life in the monastery composing many fine ecclesiastical poems and translating the Scriptures into the current Anglo-Saxon of the country of that time.—Vancouver Province.

Mysteries of Vitamines Sought by Scientists

Vitamines are one of the essential elements in foods. Lack of them has been proved to cause eye diseases, sterility, rickets, scurvy, beriberi and stunted growth. They exist in certain foodstuffs only, and even in parts of foodstuffs, such as the husks of rice and potato peelings, which are not generally eaten. Methods of removing these elements from unpalatable parts of foods are most important, as they may thus be added to more palatable diets otherwise inadequate to the maintenance of health.

Science is attempting to solve the mysteries of vitamine production and removal, says a writer in the Washington Post. Ultimately it expects to manufacture these valuable food constituents synthetically in its laboratories. When that day arrives human health will have been promoted immeasurably, for no other single item is more important, particularly to children, than the vitamines.

Firefly in Commerce

Fireflies destroy larvae and insects, which are their natural food. In addition to this, they have a value, dead or alive, in China and Japan, where they are used in the manufacture of drugs, poultices and pills peculiar to the practice of Chinese medicine. Firefly grease (hotaru-no-abura) is used by woodworkers for the purpose of imparting rigidity to objects made of bent bamboo. In China and Japan the catching and selling of fireflies during the summer months is of such extent as to be considered an industry. The chief center of the industry is in the region about Ishiyama, near the lake of Omi, where a number of merchants ship the fireflies to Osaka and Kyoto. Each house employs from 60 to 70 flycatchers, and experts are known to catch as many as 3,000 in a single night.

Still Use Roman Roads

The changes which have come over the planning and construction of great highways built or projected across the continent prove that the first builders of roads were the best, according to Thomas S. Borworth, in the New York Times. The main highways across Europe, many of them still in use today after 2,000 years, remain as monuments to the supreme mechanical genius of the Americans of their day, the old Romans. Not only did they plan their roads on the principle that the straight line is the shortest between two points, but they built them so well that, with minor changes, the modern cities of Europe still depend upon them for their communication by automobile.

Stars Still Tell Time

In casually looking at your watch to tell the time of day, you probably don't stop to think that your timepiece, if it is accurate, has indirectly received its time from the stars.

In an article in the World's Work, it is pointed out that the naval observatory at Washington, which furnishes the nation its time, makes a check every night by observations of the stars. Three delicate clocks are enclosed in glass cases far beneath the ground, and are kept at an exact temperature. These clocks keep the time which is first determined by astronomers, and hourly throughout the day comes the time across the country, correct to the thousandth part of a second.

Venetian Canals

Venice is built upon islands, which served as refuge for inhabitants of neighboring cities during attacks by barbarians. Its strategic advantage was so great that many fugitives remained, and the lagoons which separated the islands were the natural streets. These islands were formed from the silt and debris brought down by rivers, and the soil is an oozy mud that makes building difficult. Roadbeds would be extremely difficult to make, while canals are, obviously, easy to construct and maintain.

"Annie Laurie"

The song "Annie Laurie" was written about 1700 by William Douglas of Kirkcudbright, Scotland, to the lady he loved, the daughter of Sir Robert Laurie. Apparently she did not return his affection, for she married another, one Alexander Fergusson.

Married Seventy Years

William Mitchell of Elizabeth, N. J., and his wife, who celebrated the 70th anniversary of their marriage on Mr. Mitchell's 92nd birthday.

CATHOLIC SERVICES

Services will be held every Friday night at 7:30 at St. Anne Catholic church here beginning tomorrow night. These services will continue weekly during the Lenten season. Everybody is invited to attend.

BATHTUBS AND OTHER LUXURIES

Have you a bathtub in your home? No, that isn't "Foolish question number umpteen." There are nine million homes in America without bathtubs, according to the statistical abstract of the United States. Only two houses out of three have them. A few years ago, as time goes, nobody had bathtubs. There was one in the White House when Lincoln was president, and when President Cleveland wanted to have a second one put in, members of congress made speeches denouncing the bad example of luxury which the president would set! The first bathtub with fixed plumbing was installed in Cincinnati less than 155 years ago and physicians denounced the habit of bathing as injurious to health.

Times change and luxuries multiply. Today fifteen million homes have electric flatirons, seven million have vacuum cleaners, five million have washing machines, nearly three-quarters of a million have electric refrigerators. The time is coming, and coming soon, when these and other electrical appliances will be regarded by everybody in America as of great importance as the bathtub, but it may be another hundred years before everybody has them, and even then there will probably be some homes without bathtubs.

SUMMER IRRIGATION RATES ON WATER

At the meeting of the City Commission on Tuesday, March 3rd, it was decided to have the same irrigation rates on water as were given last summer. This contract will be for the months of April, May, June, July, August and September and must be signed and in the City Secretary's office by April 10th, 1930.

In signing these contracts, the consumer agrees to use the water for ordinary household and irrigation purposes jointly or for irrigation purposes alone.

HARVEY CASH,
City Secretary.
